

Sustainable Use of Pesticides in the context of the European Green Deal

DG Health and Food Safety

CDG April 2022

Farm to Fork – 2030 targets

Reduce by 50% the overall use and risk of **chemical pesticides** and reduce use by 50% of more hazardous **pesticides**

Achieve at least 25% of the EU's agricultural land under **organic farming**

F2F actions – legislation

Revision of **Sustainable Use of Pesticides Directive (SUD)** and enhancement of Integrated Pest Management

Proposal – Q1 2022 now deferred to June 2022

Revision of Regulations to facilitate **plant protection products containing biological active substances**

SUD revision - intensive consultation with stakeholders & Member States

- Public **Consultation on Evaluation of SUD Roadmap** and Inception Impact Assessment (closed Aug 7 2020, 360 contributions)
- **Consultations with Member State competent authorities** on possible policy options, in more than 10 SUD Working Groups and technical meetings
- **3 major stakeholder events**, hosted by the European Commission in January, June and October 2021.
- **Online public consultation/have your say** concluded in April 2021: approx. 1,700 responses received.

SUD revision public– June 22

- Draft Commission staff working documents on evaluation and impact assessment prepared
 - External study supporting the SUD evaluation and impact assessment
 - Foresight study on future vision scenarios on the sustainable use of pesticides
- Legal text and explanatory memorandum

SUD revision – example policy areas

1. Aligning with pesticide-related targets announced in the Farm to Fork

Strategy: Align SUD with F2F targets and limit use and risks from pesticides, particularly more hazardous ones. Make legally binding but account for MS circumstances

2. Strengthening current provisions: Options on improving the practical implementation and operationalisation of IPM principles, improving uptake of SUD provisions, strengthening the effectiveness of the NAPs and improving the expertise of pesticide users. Stronger action on aerial spraying and on specific areas

SUD revision – example policy areas

- 3. Strengthening data availability and monitoring:** Monitoring the use as well as the risk of use from pesticides and use the information for policy development at Member State and EU level.
- 4. Accounting for new technologies:** Promote precision farming and the development of alternatives to chemical pesticides through the SUD, account for drones in the SUD and revise SUD provisions to account for emerging technologies and techniques

Next step

- Following the presentation of the proposal we can discuss detail
- Council Working groups and Full Council Discussions
- Parliament discussions

Thank you
