

## **Factsheet on 2014-2020 Rural Development Programme for the German Länder Berlin and Brandenburg**

The Rural Development Programme (RDP) for Berlin and Brandenburg (BE+BB) was formally adopted by the European Commission on 26 May 2015 and last amended on 21 February 2022, outlining the priorities of Berlin and Brandenburg for using the € 1,82 billion of public money that is available for the 9-year period 2014-2022 (€ 1.441,7 million from the EU budget, including € 131,2 million transferred from the German envelope for CAP direct payments and € 382 million national co-funding).

The RDP for Berlin and Brandenburg focuses mainly on three priorities. Under the first - restoring, preserving and enhancing of ecosystems related to agriculture and forestry - 27% of farmland and 0,92% of forest land is placed under funded contracts to improve biodiversity, 17,5% of farmland under contracts to improve water and 17,5% of farmland under contracts to improve soil. Under the second - social inclusion and local development in rural areas - funding ensures almost 55% of rural population being covered by local development strategies. Under the third priority - enhancing farm viability, competitiveness and sustainable forest management - 16% of farms receive investment support to modernise and restructure.

Support for Rural Development is the 2<sup>nd</sup> Pillar of the Common Agricultural Policy, providing Member States with an envelope of EU funding to manage nationally or regionally under multi-annual, co-funded programmes. In total, 118<sup>1</sup> programmes are implemented in all 28 Member States. The RD Regulation for the period 2014-2020 addresses six economic, environmental and social priorities, and programmes contain clear targets setting out what is to be achieved. Moreover, in order to coordinate actions better and maximise synergies with the other European Structural & Investment Funds (ESIF), a Partnership Agreement has been agreed with each Member State highlighting its broad strategy for EU-funded structural investment.

This document provides a brief overview of how the challenges and opportunities Berlin and Brandenburg are facing, are addressed by the RDP. In the annex, a table indicates the priorities and focus areas each with their specific targets, and their allocated budget.

---

<sup>1</sup> The UK left the Union on 31st January 2020; in accordance with the Withdrawal Agreement support under Rural Development continues to apply in the UK during the 2014-2020 programming period.

## 1. SITUATION AND KEY CHALLENGES

In Germany, rural development is implemented through 13 separate regional RDPs, which broadly correspond to the various *Länder* (but with two joint programmes). However, common elements to several regional programmes are presented in a national framework (NF) established at federal level. In addition to this, a National Rural Network Programme provides the funding for the networking of rural development actors in Germany.

Brandenburg covers an area of 29.656 km<sup>2</sup>, of which 32.5% is defined as rural and 67.5% as intermediate area. 51.5% of the territory is agricultural area and 36.6% is forest (2018). There are 5.410 agricultural holdings in Brandenburg in total (2016). 38% of them are above 100 ha (compared to 13.3% in Germany as a whole); the average size is 244 ha and thus more than four times as large as the national average (60.5 ha). The predominant form of operation in Brandenburg is forage growing and grazing livestock. Berlin has an area of 891 km<sup>2</sup>, 17.7% is forest and only 4.9% of Berlin's territory is agricultural area (2018). The average size of all 50 farms is 37 hectares with horticulture constituting the predominant form of operation. Of the combined agricultural area of Berlin-Brandenburg (1.323.200 ha in 2018), 76.9% is arable land and 22.7% is permanent grassland.

With a population of 2.5 million inhabitants, Brandenburg is a sparsely populated German Land (86 inhabitants per km<sup>2</sup> as against German average of 233 inhabitants per km<sup>2</sup> in 2016). Berlin has a population of 3.6 million inhabitants. The unemployment rate in Brandenburg amounts to 4.5% and in Berlin to 6.3% (2020). Only 6.5% of the combined population of Berlin-Brandenburg of 6.1 million (2019) lives in predominantly rural areas and about one-third (34.5%) live in intermediate areas, however with large differences between the centre and peripheral regions of Brandenburg.

In this context, low productivity and competitiveness in the agricultural sector, demographic change and loss of economic activities in rural areas are continuing challenges in Brandenburg and Berlin. At the same time, environmental challenges relate mainly to losses in biodiversity and climate change.

## 2. HOW THE RDP FOR BERLIN AND BRANDENBURG ADDRESSES THESE CHALLENGES

In addressing these challenges, the RDP of Berlin and Brandenburg funds action under all Rural Development Priorities – with a particular emphasis on **restoring, preserving and enhancing ecosystems related to agriculture and forestry, social inclusion and local development in rural areas** and **farm viability, competitiveness and sustainable forest management**. The focus of each priority is explained briefly below.

### P1: Knowledge transfer and innovation in agriculture, forestry and rural areas

This cross-cutting priority is addressed mainly through measures supporting training and advisory services for people and businesses in rural areas: an expected **13.800 participants are foreseen to be trained**. There is also support for **178 cooperation projects** in the framework of the European Innovation Partnership for Agricultural Productivity and Sustainability.

### P2: Competitiveness of agri sector and sustainable forestry

Besides previously mentioned support for training, **16% of farms (906 farms)** receive **funding for investments** focused on restructuring and modernisation.

### P3: Food chain organisation, including processing and marketing of agricultural products, animal welfare and risk management in agriculture

Restoring agricultural production potential damaged by disasters and catastrophic events and introduction of appropriate actions is supported. Under this priority, **18.485 ha** benefit from **flood prevention** measures.

P4: Restoring, preserving and enhancing ecosystems related to agriculture and forestry

Around 60 % of the allocated amount is used for area-based payments to farmers for using environment/climate friendly land management practices, including organic farming. As a result, nearly **27% of farmland** and **0.92 % of forestry land** is to be under funded contracts to improve **biodiversity**. Additionally, the RDP includes a limited number of highly targeted agri-environmental and climate measures prioritizing the most vulnerable areas: respectively **17% of the agricultural area** is targeted to be under contract to improve **water or soil management**.

P5: Resource efficiency and climate

The program only allocates **0.6% of its funds** to this priority. Nevertheless, support allocated under this priority helps restoring wetlands and peatlands for the sake of **carbon sequestration and conservation**.

P6: Social inclusion and local development in rural areas

The programme funds Local Development Strategies (LDS) drawn up and implemented by Local Action Groups (LAGs) under the LEADER approach. LEADER covers nearly **55% of the rural population** creating both jobs – roughly **385 new jobs** expected (375 via LEADER, 10 under diversification projects) - and improving living conditions.

The four **biggest RDP measures** in budgetary terms (total public funding) are:

- € 382,3 million allocated to Measure 19: LEADER
- € 344,4 million allocated to Measure 11: Organic farming
- € 261,8 million allocated to Measure 13: Payments for areas facing natural constraints
- € 190,5 million allocated to Measure 7: Basic services and village renewal in rural areas

## Annex 1: Indicative public support for the Rural Development Programme in Berlin and Brandenburg

CCI	2014DE06RDRP007
Version	8.1

Target	Measure	Indicative public support	%
<b>P1: Fostering knowledge transfer and innovation in agriculture, forestry and rural areas</b>		<b>0.00</b>	
<b>1A Innovation, cooperation, knowledge</b>		<b>0.00</b>	
T1: percentage of expenditure under Articles 14, 15 and 35 of Regulation (EU) No 1305/2013 in relation to the total expenditure for the RDP (focus area 1A)	3.83 M01 Knowledge	0.00
