Output indicators

02/07/2024 - Version 18.0

Type(s) of interventions	Output indicators
Cooperation (Article 77 of Regulation (EU) 2115/2021)	O.1 Number of European Innovation Partnership (EIP) operational group projects
Knowledge exchange and dissemination information (Article 78)	O.2 Number of advice actions or units to provide innovation support for preparing or implementing European Innovation Partnership (EIP) operational group projects

Type(s) of interventions	Output indicators (per intervention)
Horizontal indicator	O.3^{MO} Number of CAP support beneficiaries
Basic income support for sustainability (Chapter II, Section 2, Subsection 2)	O.4 Number of hectares benefitting from basic income support
Payment for small farmers (Article 28)	O.5 Number of beneficiaries or hectares benefitting from payments for small farmers
Complementary income support for young farmers (Article 30)	O.6 Number of hectares benefitting from complementary income support for young farmers
Complementary redistributive income support for sustainability (Article 29)	O.7 Number of hectares benefitting from complementary redistributive income support
Schemes for the climate, the environment and animal welfare (Article 31)	O.8 Number of hectares or of livestock units benefitting from eco-schemes
Risk management (Article 76)	O.9 Number of units covered by supported CAP risk management tools
Coupled income support (Article 32)	O.10 Number of hectares benefitting from coupled income support
	O.11 Number of heads benefitting from coupled income support
Natural or other area-specific constraints (Article 71)	O.12 Number of hectares benefitting from support for areas facing natural or other specific constraints, including a breakdown per type of area
Area-specific disadvantages resulting from certain mandatory requirements (Article 72)	O.13 Number of hectares benefitting from support under Natura 2000 or Directive 2000/60/EC
Environmental, climate-related and other management commitments (Article 70)	O.14 Number of hectares (excluding forestry) or number of other units covered by environmental or climate-related commitments going beyond mandatory requirements
	O.15 Number of hectares (forestry) or number of other units covered by environmental or climate-related commitments going beyond mandatory requirements
	O.16 Number of hectares or number of other units under maintenance commitments for afforestation and agroforestry
	O.17 Number of hectares or number of other units benefitting from support for organic farming

DISCLAIMER

The document has no legal binding value and does not bind the European Commission in relation to the approval of the CAP strategic plans and their amendments.

Output indicators

02/07/2024 - Version 18.0

Environmental, climate-related and other management commitments (Article 70)	O.18 Number of livestock units (LU) benefitting from support for animal welfare, health or increased biosecurity measures
	O.19 Number of operations or units supporting genetic resources
Investments (Articles 73 and 74)	O.20 Number of supported on-farm productive investment operations or units
	O.21: Number of supported on-farm non-productive investment operations or units
	O.22 Number of supported infrastructure investment operations or units
	O.23 Number of supported off-farm non-productive investment operations or units
	O.24 Number of supported off-farm productive investment operations or units
Setting up of young farmers and new farmers and rural business start-up (Article 75)	O.25 Number of young farmers receiving setting-up support
	O.26 Number of new farmers receiving setting-up support (other than young farmers reported under O.25)
	O.27 Number of rural businesses receiving support for start up
Cooperation (Article 77)	O.28 Number of supported producer groups and producer organisations
	O.29 Number of beneficiaries receiving support to participate in official quality schemes
	O.30 Number of supported operations or units for generational renewal (excluding setting-up support)
	O.31 Number of supported local development strategies (LEADER) or preparatory actions
	O.32 Number of supported other cooperation operations or units (excluding EIP reported under O.1)
Knowledge exchange and dissemination of information (Article 78)	O.33 Number of supported training, advice and awareness actions or units
Horizontal indicator	O.34^{MO} Number of hectares under environmental practices (summary indicator on physical area covered by conditionality, eco-schemes, agri- and forest-environment-climate management commitments)
Types of intervention in certain sectors (Article 47)	O.35 Number of supported operational programmes
Types of interventions in the wine sector (Article 58)	O.36 Number of actions or units supported in the wine sector
Types of interventions in the apiculture sector (Article 55)	O.37 Number of actions or units for beekeeping preservation or improvement

MO: For Monitoring Only. These Output Indicators will not be used for clearance but exclusively for monitoring

02/07/2024 - Version 18.0

DISCLAIMER

The document has no legal binding value and does not bind the European Commission in relation to the approval of the CAP strategic plans and their amendments.

Output indicators

02/07/2024 - Version 18.0

Indicator name	O.1 Number of European Innovation Partnership (EIP) operational group projects [back to overview]
Definition	The total number of EIP Operational Group (OG) projects that receive support under one or more of the interventions set out in the CAP strategic plan in the Financial Year concerned.
Types of intervention concerned	The following type of intervention is concerned: <ul style="list-style-type: none"> • Cooperation to prepare or implement EIP OG projects in accordance with Article 127 (Article 78)
Methodology	The number of EIP OG projects, receiving a payment in the Financial Year concerned, should be reported by unit amount . If only a part of the committed amount for an operation was paid in the Financial Year concerned, only a partial output is to be reported (see cover note).
Methodology for the aggregated values	The following aggregates should be provided: <ul style="list-style-type: none"> - The total number of operational group projects supported by intervention (if relevant, i.e. when within one intervention several unit amounts are defined) <p>Remark:</p> <p>For these aggregates, there should be <u>no double counting</u>.</p>
Unit of measurement	Number of projects
Comments/caveats	The preparation of the OG project counts as a separate operation and can be paid as soon as it is finished, and a project proposal is ready for selection. The implementation of the OG project (after selecting it) is another operation. So, it is possible to pay for the preparation operation only, and before the project itself is finished. There is always a one-to-one relationship between an EIP OG and its innovative project. An EIP OG can run one project only: the objectives and activities of the OG project are distinctive for that OG. Thus, two different projects are always run by two different EIP OGs, no matter the OG's composition. Note that a group who did/is doing an OG project is allowed to do further OG projects, without a need to change partners.

DISCLAIMER

Output indicators

02/07/2024 - Version 18.0

Indicator name	O.2 Number of advice actions or units to provide innovation support for preparing or implementing European Innovation Partnership (EIP) operational group projects [back to overview]
Definition	Number of advice actions or other units (e.g. number of advisors) to help for preparing and/or implementing EIP Operational Group (OG) projects paid in the Financial Year concerned (excluding other type of advice actions reported under O.33).
Types of intervention concerned	<p>Only the following type of intervention is concerned:</p> <ul style="list-style-type: none"> • Knowledge exchange and dissemination of information (Article 78) <p>This indicator concerns support for advice for innovation purposes incentivising emergence and running of the EIP OG project. This support refers either to the project preparation period or to the facilitation during the project implementation of the EIP OG project (or both), and only if the advisor is not paid by the OG project budget (Article 77), but by an intervention under Article 78.</p>
Methodology	<p>The advice actions or other units, paid in the Financial Year concerned, in the frame of innovation support under Article 78, shall be reported per unit amount.</p> <p>If only a part of the committed amount for an operation was paid in the Financial Year concerned only a partial output is to be reported (see cover note).</p>
Methodology for the aggregated values	<p>Following aggregates should be provided:</p> <ul style="list-style-type: none"> - The total number of actions or units paid by intervention (if relevant, i.e. when within one intervention several unit amounts are defined) - The total number of advice actions paid to provide innovation support - The total number for each supported unit (other than advice actions and advisors) - The total number of advisors (this aggregate covers all actions, included those paid in advice actions or other units) <p>Remark:</p> <p>For the first three aggregates, there should be <u>no double counting</u>. For advisors double counting is allowed, to avoid high administrative burden.</p>
Unit of measurement	Number of operations, advisors or other units
Comments/caveats	The rationale for this indicator is to measure specific advisory efforts under Article 78 to incentivise innovation, e.g. those in accordance with Article 15(4)(e), i.e. an advisor delivering " <i>innovation support in particular for preparing and for implementing OG projects</i> ". Examples could be providing specific advisory services for innovation support, such as coaching farmers towards innovation on their farm, managing an innovation hub, which helps setting up of facilitating OG innovative projects, training advisors for innovation support.

Output indicators

02/07/2024 - Version 18.0

Indicator name	O.3^{MO} Number of CAP support beneficiaries [back to overview]
Definition	The number of CAP support beneficiaries in a Member State i.e. that received support in the Financial Year concerned under one or more of the interventions set out in the CAP strategic plan.
Types of interventions concerned	The following types of interventions are concerned: All CAP interventions set out in the CAP strategic plan by the MS, i.e.: <ul style="list-style-type: none"> • direct payments • rural development • sectoral types of interventions
Methodology	<p>Number of beneficiaries who received a payment in Financial Year, per intervention, per output indicator (broken down per category where relevant) and per type of intervention (without double counting).</p> <p>If the intervention is measured with an output indicator for which a breakdown into categories is required (e.g., O.12 Natural or other area-specific constraints), and intervention unit amounts are established for each category, then the number of beneficiaries without double counting should be provided for each category within the same intervention.</p> <p>If the type of intervention is measured with an output indicator for which a breakdown into categories is required (e.g. O.12 Natural or other area-specific constraints), then the number of beneficiaries without double counting should be provided for each category and also for the type of intervention as a whole.</p> <p>If a type of intervention is measured with more than one output indicator (e.g., investments and agri-environment-climate commitments), the number of beneficiaries should be provided also by output indicator.</p> <p>For direct payments, beneficiaries are defined in Article 3(1).</p> <p>For rural development, beneficiaries are defined in Article 3(13).</p> <p>This figure also includes beneficiaries that receive support in the form of additional national financing for outputs that are exclusively generated through this kind of support.</p>
Methodology for aggregates	The following aggregates should be provided: <ul style="list-style-type: none"> • The total number of beneficiaries by intervention/category • The total number of beneficiaries by output indicator/category • The total number of beneficiaries by type of intervention, except for Risk management tools (Article 76) for which O.3 is not required • The total number of farmers receiving directly support, broken down by: <ul style="list-style-type: none"> ○ Men

DISCLAIMER

Output indicators

02/07/2024 - Version 18.0

	<ul style="list-style-type: none"> ○ Women ○ Non-binary¹ ○ Prefer not to say² ○ No prevalence³ <ul style="list-style-type: none"> ● The total number of farmer beneficiaries of direct payments (Chapter II of Title III) <p>Remarks: For these aggregates, beneficiaries are accounted in full and there should be <u>no double counting</u>: i.e. where a beneficiary benefits from multiple interventions, that beneficiary should be counted only once in the aggregate. The aggregate also includes beneficiaries that receive support in the form of additional national financing for outputs that are exclusively generated through this kind of support.</p> <p>If the beneficiary is a group of natural persons, a legal person or a group of legal persons, the gender of the main manager of the farm is reported. The main manager refers to the person who enjoys the decision-making power in relation to the agricultural activities exercised on the farm and who bears benefits and financial risks related to those activities.</p> <p>If the beneficiary is an organisation (such as an agricultural school), Member States can collect the gender of the person taking the decision for the farming activities or select the “no prevalence” category.</p> <p>Regarding the aggregated values that only refer to farmers, only farmers directly receiving financial support are reported in these aggregates. In other words, farmers benefitting indirectly from CAP support through actions of producer organisations (PO), training and advice actions, projects implemented under Local Development Strategies (CLLD/Leader) and mutual funds are not taken into account in this indicator.</p>
Unit of measurement	Number of beneficiaries
Comments/caveats	<ul style="list-style-type: none"> - The detailed information by intervention and type of intervention relates to all direct beneficiaries of CAP support (not only farmers). - By contrast, the aggregated figures for direct beneficiaries of total CAP support and direct payments relate only to farmers. - In order to provide these data, there will be a need for a unique identifier of each beneficiary (used for all support applications) to avoid double counting between Direct Payments, Rural Development and sectoral types of interventions in IACS.

¹ 'Non-binary' is provided for those Member States which have legal provisions or practices recognising that individuals may not fall into man and woman categories.

² 'Prefer not to say' applies for persons who may not wish to be associated with one gender.

³ 'No prevalence' is provided for cases where a perfect gender balance in the decision-making power occurs between different genders.

Output indicators

02/07/2024 - Version 18.0

Indicator name	O.4 Number of hectares benefitting from basic income support [back to overview]
Definition	The number of hectares paid for the interventions under basic income support for sustainability in the Financial Year concerned.
Types of intervention concerned	The following type of interventions are concerned: <ul style="list-style-type: none"> • The Basic income support for sustainability (BISS) including the round-sum payment for small farmers (Chapter II, Section 2, Subsection 2)
Methodology	The number of hectares, paid in Financial Year concerned, shall be reported per intervention unit amount .
Methodology for the aggregated values	<p>The following aggregates should be provided:</p> <ul style="list-style-type: none"> - The total number of hectares for basic income support for sustainability (i.e. the area paid after applying the entitlements) - The total number of hectares for decoupled Direct Payments taken together (i.e. for Member States without entitlements, the area paid⁴ for decoupled Direct Payments; for Member States with entitlements, the number of eligible hectares for direct payments as defined in accordance with Article 4(4) held by beneficiaries of BISS (including round sum) and before taking into account the entitlements⁵) <p>Remark: For these aggregates hectares are accounted in full, there should be <u>no double counting</u>: i.e. where the same hectare benefits from support under multiple decoupled direct payments interventions, that hectare should be counted only once for the aggregate.</p>
Unit of measurement	Number of hectares
Comments/caveats	

⁴ This is equivalent to the area determined as eligible for payment after controls.

⁵ It is used instead of the paid area as direct payments contribute to the support of the income of the whole farm whether the farmer has entitlements for its whole area or part of it. It also simplifies the calculation without double counting by allowing for geospatial location of all hectares under BISS.

DISCLAIMER

Output indicators

02/07/2024 - Version 18.0

Indicator name	O.5 Number of beneficiaries or hectares benefitting from payments for small farmers [back to overview]
Definition	The number of CAP support beneficiaries or hectares in a Member State that received support in the Financial Year concerned for the payments for small farmers.
Types of interventions concerned	The following type of interventions is concerned: <ul style="list-style-type: none"> • The payment for small farmers (Article 28)
Methodology	The number of beneficiaries or hectares of payments for small farmers intervention in Financial Year concerned shall be reported per unit amount .
Methodology for the aggregated values	The following aggregate should be provided: <ul style="list-style-type: none"> - The total number of beneficiaries of the payments for small farmers (accounted in full) - The total number of hectares for the payments for small farmers <p>Remark: For these aggregates, beneficiaries or hectares are accounted in full. They cover all the payments for small farmers (i.e. those paid per beneficiary and those paid per hectare). In addition, there should be <u>no double counting</u>.</p>
Unit of measurement	Number of beneficiaries or hectares
Comments/caveats	The partial number of beneficiaries or hectares to be reported corresponds to the share of the payment in the Financial Year concerned in the total amount to be paid. For example, for a small farmer receiving only 90% of the payment in the Financial Year concerned, the reported output is 0.9. By contrast, for the aggregated values, the beneficiaries and the hectares of the payments for small farmers are accounted in full.

Output indicators

02/07/2024 - Version 18.0

Indicator name	O.7 Number of hectares benefitting from complementary redistributive income support [back to overview]
Definition	The number of hectares paid under complementary income support for sustainability (CRISS) in the Financial Year concerned.
Types of intervention concerned	The following type of intervention is concerned: <ul style="list-style-type: none"> • The complementary redistributive income support for sustainability (CRISS) (Article 29)
Methodology	The number of hectares paid in the Financial Year concerned shall be reported per unit amount .
Methodology for the aggregated values	The following aggregate should be provided: <ul style="list-style-type: none"> - The total number of hectares for complementary redistributive income support for sustainability (CRISS) (i.e. the area paid) <p>Remark:</p> <p>For this aggregate, hectares are accounted in full and there should be <u>no double counting</u>.</p>
Unit of measurement	Number of hectares
Comments/caveats	

DISCLAIMER

The document has no legal binding value and does not bind the European Commission in relation to the approval of the CAP strategic plans and their amendments.

Output indicators

02/07/2024 - Version 18.0

Indicator name	O.8 Number of hectares or of livestock units benefitting from eco-schemes [back to overview]
Definition	The number of units (hectares or livestock units) paid under the schemes for the climate and environment (eco-schemes) in the Financial Year concerned.
Types of intervention concerned	The following type of intervention is concerned: <ul style="list-style-type: none"> • Schemes for the climate, the environment and animal welfare (eco schemes) (Article 31)
Methodology	The number of units (hectares or livestock units) paid in the Financial Year concerned shall be reported per intervention unit amount .
Methodology for the aggregated values	<p>The following aggregates should be provided:</p> <ul style="list-style-type: none"> - The total number of hectares/livestock units paid by intervention and by unit (if relevant, i.e. when within one intervention several unit amounts are defined) - The total number of hectares supported with eco-schemes (i.e. the area under commitment) - The total number of livestock units supported with eco-schemes (i.e. the livestock units under commitment) <p>Remark: For these aggregates, hectares and livestock are accounted in full. In addition, there should be <u>no double counting</u>: i.e. where the same hectare benefits from support under multiple eco-schemes interventions, that hectare should be counted only once for the aggregate.</p> <p>For livestock units the double counting should be avoided, relying on the unique ID of beneficiaries.</p>
Unit of measurement	Number of hectares or livestock units
Comments/caveats	<p>The payment for livestock units may apply in case of animal welfare commitments, commitments addressing antimicrobial resistance and, if duly justified, commitments for practices beneficial for climate.</p> <p>The coefficients to convert animal numbers in Livestock Units are available in the annex of the Commission Implementing Regulation (EU) 2021/2290.</p>

The document has no legal binding value and does not bind the European Commission in relation to the approval of the CAP strategic plans and their amendments.

Output indicators

02/07/2024 - Version 18.0

Indicator name	O.9 Number of units covered by supported CAP risk management tools [back to overview]
Definition	The total number of units covered in the Financial Year concerned by CAP risk management tools.
Types of intervention concerned	The following interventions are concerned: <ul style="list-style-type: none"> • Risk management tools (Article 76) <p>If financial instruments are used to provide farmers with working capital under Article 76, the output should be reported here.</p>
Methodology	The number of units paid in the Financial Year concerned, shall be reported per intervention unit amount .
Methodology for the aggregated values	The following aggregates should be provided: <ul style="list-style-type: none"> - The total number of units supported by CAP risk management tools by intervention (if relevant, i.e. when within one intervention several unit amounts are defined) - The total number of beneficiaries covered by supported insurance scheme - The total number of mutual funds covered by risk management support - The total number of beneficiaries covered by supported risk management schemes other than insurances and mutual funds - The total number of final recipients receiving support in the form of financial instruments for risk management purposes <p>Remark: Mutual funds and farmers are accounted in full in the aggregates. Double counting should be avoided, as far as possible.</p>
Unit of measurement	Number of beneficiaries, funds, hectares or other units
Comments/caveats	If insurance schemes are paid per hectare, the covered number of beneficiaries should nevertheless be accounted in the aggregate.
	The final recipients of support in the form of financial instruments are those receiving the repayable support as defined in Article 2(18) of Regulation 2021/1060 (CPR). The beneficiaries of financial instruments as defined in Article 3(13)(c) of SPR – i.e. the financial institutions - are not taken into account for reporting purposes.

Output indicators

02/07/2024 - Version 18.0

Indicator name	O.10 Number of hectares benefitting from coupled income support [back to overview]
Definition	The number of hectares paid under each area-related Coupled Income Support (CIS) intervention in the Financial Year concerned. For interventions under coupled income support that target oilseed crops covered by the Blair House Agreement, the area for which support has been actually paid should be reported as a separate output pursuant to Article 33(4).
Types of intervention concerned	All area-related interventions under CIS (Chapter II, Section 3, Subsection 1)
Methodology	The number of hectares, paid in the Financial Year concerned, shall be reported for each area-related CIS intervention . In case within one CIS intervention several unit amounts are defined (e.g. by farm size), the number of hectares paid per unit amount shall be reported.
Methodology for the aggregated values	Following aggregates should be provided: <ul style="list-style-type: none"> - The total number of hectares paid by intervention (if relevant, i.e. when within intervention several unit amounts are defined) - The total number of hectares for groups of CIS interventions covering the same sector (i.e. the area paid for CIS, per sector) The sectors are set out in Article 33 - The total number of hectares under CIS interventions <p>Remark: For these aggregates hectares are accounted in full and there should be <u>no double counting</u>: i.e. where the same hectare benefits from support under multiple coupled income support interventions, that hectare should be counted only once for the aggregate.</p>
Unit of measurement	Number of hectares
Comments/caveats	It is possible for Member States to pay on the basis of units other than hectares, where appropriate (e.g. acres, decares, etc.). However, planning in the CAP plan and reporting in the annual performance report should be done based on the number of hectares.

DISCLAIMER

The document has no legal binding value and does not bind the European Commission in relation to the approval of the CAP strategic plans and their amendments.

Output indicators

02/07/2024 - Version 18.0

Indicator name	O.11 Number of heads benefitting from coupled income support [back to overview]
Definition	The number of heads paid for the interventions under each animal-related Coupled Income Support (CIS) intervention in the Financial Year concerned.
Types of intervention concerned	All animal-related interventions under CIS (Chapter II, Section 3, Subsection 1)
Methodology	The number of heads paid in the Financial Year concerned should be reported for each animal-related CIS intervention . In case within one CIS intervention several unit amounts are defined (e.g. by herd size), the number of heads paid per unit amount shall be reported.
Methodology for the aggregated values	Following aggregates should be provided: - The total number of heads paid for animal-related CIS per sector (i.e. the number of heads paid for coupled income support, without double counting, in each sector). The sectors are set out in Article 33. Remark: For these aggregates heads are accounted in full and there should be <u>no double counting</u>
Unit of measurement	Number of heads
Comments/caveats	It is possible for Member States to pay on the basis of unit other than heads of animals, where appropriate (e.g. livestock units). However, planning in the CAP plan and reporting the annual performance report should be done based on a number of heads. In such cases, a conversion key between the unit for payment (LU) and the number of heads should be defined and used consistently.

Indicator name	O.14 Number of hectares (excluding forestry) or number of other units covered by environmental or climate-related commitments going beyond mandatory requirements [back to overview]
Definition	The total number of hectares (excluding forestry) covered by environment/climate commitments going beyond mandatory requirements and specified in the CAP Strategic Plans, for which a payment was made in the Financial Year concerned. In special cases, if the support is granted as a lump sum, the number of beneficiaries is reported.
Types of intervention concerned	The following types of interventions are concerned: <ul style="list-style-type: none"> • Environmental, climate-related and other management commitments (Article 70): payments for environment/climate commitments.
Methodology	The number of hectares or other units paid in the Financial Year concerned shall be reported per unit amount . In case within one intervention several unit amounts are defined, the number of hectares or other units paid shall be reported per unit amount . If only a partial payment was made in the Financial Year concerned, only a partial output is to be reported (see cover note)
Methodology for the aggregated values	The following aggregates should be provided: <ul style="list-style-type: none"> - The total number of hectares paid by intervention (if relevant, i.e. when within one intervention several unit amounts are defined) - The number of hectares (excluding forestry) under environmental or climate commitments (the area under commitments). This aggregate covers the number of hectares of the farms, which are granted the support as a lump sum. - Total number of beneficiaries, if the support is granted as a lump sum <p>Remark: For these aggregates, there should be <u>no double counting</u>: i.e. where the same hectare benefits from support under multiple environmental or climate commitments, that hectare should be counted only once for the aggregate. Units are accounted in full in the aggregates.</p>
Unit of measurement	Number of hectares or beneficiaries for lump sum payments
Comments/caveats	Forestry area covered by environment/climate commitments are to be reported under O.15. Maintenance commitments for afforested land and agroforestry are to be reported under O.16. Area under organic commitments shall be reported under O.17. When the payment is exceptionally granted as a lump sum, Member States should also collect the number of hectares for the result indicators and for the aggregated output, unless they duly justify why it is not appropriate.

DISCLAIMER

The document has no legal binding value and does not bind the European Commission in relation to the approval of the CAP strategic plans and their amendments.

Output indicators

02/07/2024 - Version 18.0

Indicator name	O.15 Number of hectares (forestry) or number of other units covered by environmental climate-related commitments going beyond mandatory requirements [back to overview]
Definition	The total number of hectares (forestry) or other units (such as trees) covered by environment/climate commitments going beyond mandatory requirements specified in the CAP Strategic Plans for which a payment was made in the Financial Year concerned.
Types of intervention concerned	The following types of interventions are concerned: <ul style="list-style-type: none"> • Environmental, climate-related and other management commitments (Article 70): Payments for forest environment/climate commitments.
Methodology	The number of hectares or other units paid in the Financial Year concerned, shall be reported per unit amount . If only a partial payment was made in the Financial Year concerned, only a partial output is to be reported (see cover note)
Methodology for the aggregated values	The following aggregates should be provided: <ul style="list-style-type: none"> - The total number of hectares paid by intervention (if relevant, i.e. when within one intervention several unit amounts are defined) - The number of hectares (forestry) under environmental or climate commitments going beyond mandatory requirements. If commitments are paid per other units than hectares, the covered number of hectares should nevertheless be accounted in the aggregate, unless duly justified. - Total number for each supported unit (other than hectares) under environmental or climate commitments going beyond mandatory requirements <p>Remark:</p> <ul style="list-style-type: none"> - For these aggregates, there should be <u>no double counting</u>: i.e. where the same hectare benefits from support under multiple environmental or climate commitments, that hectare should be counted only once for the aggregate. - Units are accounted in full in the aggregates
Unit of measurement	Number of hectares, trees or other units
Comments/caveats	Commitments related to the maintenance (and thus not going beyond mandatory requirements) for afforestation and agroforestry are to be reported under O.16.

DISCLAIMER

The document has no legal binding value and does not bind the European Commission in relation to the approval of the CAP strategic plans and their amendments.

Output indicators

02/07/2024 - Version 18.0

Indicator name	O.16 Number of hectares or number of other units under maintenance commitments for afforestation and agroforestry [back to overview]
Definition	The total number of hectares (forestry) or other units (such as trees) covered by maintenance commitments for afforestation and agroforestry specified in the CAP Strategic Plans for which a payment was made in the Financial Year concerned.
Types of intervention concerned	The following types of interventions are concerned: <ul style="list-style-type: none"> • Environmental, climate-related and other management commitments (Article 70): Payments for maintenance commitments for afforestation and agroforestry
Methodology	The number of hectares or other units paid in the Financial Year concerned, shall be reported per unit amount . If only a partial payment was made in the Financial Year concerned, only a partial output is to be reported (see cover note)
Methodology for the aggregated values	The following aggregates should be provided: <ul style="list-style-type: none"> - The total number of hectares paid by intervention (if relevant, i.e. when within one intervention several unit amounts are defined) - The number of hectares (forestry) under commitments. If commitments are paid per other units than hectares, the covered number of hectares should nevertheless be accounted in the aggregate (unless duly justified). - Total number for each supported unit (other than hectares) under maintenance commitments for afforestation and agroforestry <p>Remark:</p> <ul style="list-style-type: none"> - For these aggregates, there should be <u>no double counting</u>: i.e. where the same hectare benefits from support under multiple environmental or climate commitments, that hectare should be counted only once for the aggregate. - Units are accounted in full in the aggregates
Unit of measurement	Number of hectares, trees or other units
Comments/caveats	Forest environment and climate commitments going beyond mandatory requirements are to be reported under O.15. This intervention is linked to R.17 (Afforested land) because this support follows the afforestation and the establishment of agroforestry. Support for maintenance of afforested area or agroforestry systems cannot be linked to R.30 (Supporting sustainable forest management) since this support is not linked to commitments going beyond mandatory requirements.

DISCLAIMER

The document has no legal binding value and does not bind the European Commission in relation to the approval of the CAP strategic plans and their amendments.

Output indicators

02/07/2024 - Version 18.0

Indicator name	O.17 Number of hectares or number of other units benefitting from support for organic farming [back to overview]
Definition	The total number of hectares with support for organic farming specified in the CAP Strategic Plans for which a payment was made in the Financial Year concerned. In special cases, if the support is granted as a lump sum, the number of beneficiaries will be reported.
Types of intervention concerned	The following types of interventions are concerned: <ul style="list-style-type: none"> • Environmental, climate-related and other management commitments (Article 70): payments for commitments to convert to or maintain organic farming practices.
Methodology	The number of hectares or other units paid in the Financial Year concerned, shall be reported per unit amount . If only a partial payment was made in Financial Year concerned, only a partial output is to be reported (see cover note)
Methodology for the aggregated values	The following aggregates should be provided: <ul style="list-style-type: none"> - The total number of hectares paid by intervention (if relevant, i.e. when within one intervention several unit amounts are defined) - Total number of hectares under organic farming (the area under commitments). This aggregate covers the number of hectares of the farms, which are granted the support as a lump sum. - Total number of beneficiaries with support for organic farming, if the support is paid as a lump sum. <p>Remark For the aggregates, there should be <u>no double counting</u>. Units are accounted in full in the aggregates</p>
Unit of measurement	Number of hectares or beneficiaries for lump sum payments
Comments/caveats	When the payment is exceptionally granted as a lump sum, Member States should also collect the number of hectares for the result indicators and for the aggregated output, unless they duly justify why it is not appropriate.

DISCLAIMER

The document has no legal binding value and does not bind the European Commission in relation to the approval of the CAP strategic plans and their amendments.

Output indicators

02/07/2024 - Version 18.0

Indicator name	O.18 Number of livestock units (LU) benefitting from support for animal welfare, health or increased biosecurity measures [back to overview]
Definition	The number of livestock units (LU) covered by management commitments for animal welfare, health or increased biosecurity measures specified in the CAP Strategic Plans for which a payment was made in the Financial Year concerned.
Types of intervention concerned	The following types of interventions are concerned: <ul style="list-style-type: none"> • Environmental, climate-related and other management commitments paid per LU (Article 70): animal welfare commitments
Methodology	The number of Livestock units (LU) paid in the Financial Year concerned, shall be reported per unit amount . In case within one intervention several unit amounts are defined, the number of LU paid per unit amount shall be reported. If only a partial payment was made in the Financial Year concerned, only a partial output is to be reported (see cover note).
Methodology for the aggregated values	The following aggregates should be provided: <ul style="list-style-type: none"> - The total number of LU paid by intervention (if relevant, i.e. when within one intervention several unit amounts are defined) - The number of LU under commitments for animal welfare, health or increased biosecurity measures (without double counting) <p>Remark For the aggregates LU are accounted in full and there should be <u>no double counting</u>.</p>
Unit of measurement	Number of LU
Comments/caveats	The coefficients to convert animal numbers in Livestock Units are available in the annex of the Commission Implementing Regulation (EU) 2021/2290. Investments related to animal welfare, animal health and biosecurity shall be reported under O.20.

DISCLAIMER

The document has no legal binding value and does not bind the European Commission in relation to the approval of the CAP strategic plans and their amendments.

Output indicators

02/07/2024 - Version 18.0

Indicator name	O.19 Number of operations or units supporting genetic resources [back to overview]
Definition	The total number of (i) operations supporting genetic resources or (ii) livestock units (LU) of endangered breeds, or (iii) hectares of endangered plant varieties covered by supported management commitments paid in the Financial Year concerned.
Types of intervention concerned	The following type of intervention is concerned: <ul style="list-style-type: none"> • Environmental, climate-related and other management commitments (Article 70): payments for endangered breeds/plant varieties under (i) threat of genetic erosion, or (ii) conservation, sustainable use and development of genetic resources, in line with Article 45 of Commission Delegated Regulation (EU) 2022/126. • Member States can programme genetic resources either as an IACS intervention (i.e. paid in ha/LU) or as a non-IACS intervention (e.g. paid as an operation).
Methodology	The number of operations, LU or hectares paid in the Financial Year concerned, shall be reported per unit amount . If only a partial payment was made in Financial Year concerned, only a partial output is to be reported (see cover note).
Methodology for the aggregated values	The following aggregates should be provided: <ul style="list-style-type: none"> - The total number of operations or units paid by intervention (if relevant, i.e. when within one intervention several unit amounts are defined) - The total number of operations of genetic resources supported - The total number of hectares of endangered plant varieties supported - The total number of LU of endangered breeds supported - The total number of other units supported <p>Remark For the aggregates, there should be <u>no double counting</u>. Units are accounted in full in the aggregated values when measured in hectares or LU. For other units of measurement, partial outputs should be accounted in the aggregated values.</p>
Unit of measurement	Number of relevant unit: operations, LU, hectares, or other units
Comments/caveats	The coefficients to convert animal numbers in Livestock Units are available in the annex of the Commission Implementing Regulation (EU) 2021/2290.

DISCLAIMER

The document has no legal binding value and does not bind the European Commission in relation to the approval of the CAP strategic plans and their amendments.

Output indicators

02/07/2024 - Version 18.0

Indicator name	O.20 Number of supported on-farm productive investment operations or units [back to overview]
Definition	The total number of supported on-farm productive investments operations or other units for which a payment (grants, financial instruments ⁶ or a combination of both) was made in the Financial Year concerned.
Types of interventions concerned	The following types of interventions are concerned: <ul style="list-style-type: none"> • Investments (Article 73)
Methodology	The number of supported on-farm productive investments operations or other units for which payments were made in the Financial Year concerned shall be reported per average unit amount . If one or more instalments are paid before the final payment for an operation, only a partial output is to be reported (see cover note)
Methodology for the aggregated values	The following aggregates should be provided: <ul style="list-style-type: none"> - The total number of supported on-farm productive investment operations or units by intervention (if relevant, i.e. when within one intervention several average unit amounts are defined) - The total number of supported on-farm productive investment operations (this aggregate covers all operations, included those paid in other units) - The total number for each supported unit (other than operation) for on-farm productive investments. <p>Remark: For the aggregates, there should be <u>no double counting</u>. For example, operations for which beneficiaries benefit of a combination of installation grant and financial instruments should be counted only once in the total.</p>
Unit of measurement	Number of investment operations or units
Comments/caveats	In their CAP plans, MS should link their interventions to those output indicators they consider relevant. Generally, on-farm investments are related to agricultural activities. Productive investments generally lead to an increase in profitability or value. In the majority of cases, it will be evident to which category an investment belongs to. However, where an investment could be classified as either on-farm or off-farm, the Commission will accept the classification proposed by the MS.

⁶ In case of guarantee financial instruments, guarantee commitments linked to disbursed loans.

DISCLAIMER

The document has no legal binding value and does not bind the European Commission in relation to the approval of the CAP strategic plans and their amendments.

Output indicators

02/07/2024 - Version 18.0

Indicator name	O.21 Number of supported on-farm non-productive investment operations or units [back to overview]
Definition	The total number of supported on-farm non-productive investment operations or other units for which a payment was made in the Financial Year concerned.
Types of interventions concerned	The following types of interventions are concerned: <ul style="list-style-type: none"> • Investments (Article 73)
Methodology	The number of supported on-farm non-productive investment operations or other units for which payments have been made in the Financial Year concerned shall be reported per average unit amount . If one or more instalments are paid before the final payment for an operation, only a partial output is to be reported (see cover note)
Methodology for the aggregated values	The following aggregates should be provided: <ul style="list-style-type: none"> - The total number of supported non-productive investment operations or units by intervention (if relevant, i.e. when within one intervention several average unit amounts are defined) - The total number of supported non-productive investment operations (this aggregate covers all operations, included those paid in other units) - The total number for each supported unit (other than operation) for on-farm non-productive investments. <p>Remark: Operations for which beneficiaries benefit of a combination of installation grant and financial instruments should be counted only once in the total.</p>
Unit of measurement	Number of investment operations or units
Comments/caveats	In general, on-farm investments are related to agricultural activities. Off-farm non-productive investments are to be reported under O.23. However, where an investment could be classified as either on-farm or off-farm, the Commission will accept the classification proposed by the MS. Generally, non-productive investments are investments that do not lead to any significant increase in value or profitability. Typically, they aim at purely environmental improvements and are linked to the achievement of agri-environment-climate objectives set out in points (d), (e) and (f) of Article 6(1). Examples would be the creation and/or restoration of landscape features, such as wetlands, hedges, dry-stone walls and traditional boundaries, or the creation and/or restoration of habitat or landscape elements, such as heathland, species-rich grassland, or floristically enhanced grass margins.

02/07/2024 - Version 18.0

Indicator name	O.31 Number of supported local development strategies (LEADER) or preparatory actions [back to overview]
Definition	The number of local development strategies (prepared or implemented) or preparatory actions for which a payment under cooperation was made in the Financial Year concerned.
Types of intervention concerned	The following type of interventions are concerned: <ul style="list-style-type: none"> • Cooperation (Article 77)
Methodology	<p>The number of local development strategies or preparatory actions for which a payment was made in the Financial Year concerned shall be reported per unit amount.</p> <p>Cooperation support to implement local development strategies is paid progressively over the programming period. The output reported should correspond to the share of the amount paid in the Financial Year concerned in the committed amount to be paid for that local development strategies.</p> <p>E.g. for a payment of 25% of the committed amount, 0.25 of output is to be reported.</p> <p>In the case of financial instruments (FI), the output indicator shall report the number of final recipient projects receiving FI support under the Leader intervention.</p>
Methodology for the aggregated values	<p>The following aggregates should be provided:</p> <ul style="list-style-type: none"> - The total number of local development strategies or preparatory actions paid by intervention (if relevant, i.e. when within one intervention several unit amounts are defined) - The total number of local development strategies for which support for preparatory action was paid - The total number of local development strategies whose implementation was supported - Data reported for FIs under O.31 should not be taken into account.
Unit of measurement	Number of local development strategies or preparatory actions <i>[In case of FIs, number of final recipient projects]</i>
Comments/caveats	<p>The indicator covers (in accordance with Article 77(4))</p> <ul style="list-style-type: none"> - beneficiaries of support as an overall amount (covering the cost of cooperation as well as the cost of the projects and operations implemented), as well as - beneficiaries of support covering only the cost of the operation but using funds from other types of interventions for project implementation (e.g. investments). In this case, however, the project implementation is covered by the corresponding indicators (e.g. for investments), and not by this indicator.

Output indicators

02/07/2024 - Version 18.0

Indicator name	O.32 Number of supported other cooperation operations or units (excluding EIP reported under O.1) [back to overview]
Definition	The number of other forms of cooperation operations or other units for which a payment under cooperation was made in the Financial Year concerned (excluding EIP operational groups reported under O.1 and all cooperation interventions reported under O.28 to O.31)
Types of intervention concerned	The following type of intervention is concerned: <ul style="list-style-type: none"> • Cooperation (Article 77)
Methodology	<p>The number of other forms of cooperation operations or other units paid in the Financial Year concerned, shall be reported per unit amount (excluding EIP operational groups reported under O.1 and all cooperation groups reported under O.28 to O.31).</p> <p>In the case of financial instruments (FI), the output indicator shall report the number of final recipients receiving FI support under other cooperations.</p> <p>If one or more instalments are paid before the final payment for an operation, only a partial output is to be reported (see cover note).</p>
Methodology for the aggregated values	<p>The following aggregates should be provided:</p> <ul style="list-style-type: none"> - The total number of other cooperation operation or units paid by intervention (if relevant, i.e. when within one intervention several unit amounts are defined) - The total number of other cooperation group operations (this aggregate covers all operations, included those paid in other units) - A total number for each supported unit (other units potentially used to apply simplified cost approaches) for other cooperation.
Unit of measurement	Number of operations, final recipients or other units
Comments/caveats	<p>The indicator covers (in accordance with Article 77(4))</p> <ul style="list-style-type: none"> - beneficiaries of support as an overall amount (covering the cost of cooperation as well as the cost of the operations implemented), as well as - beneficiaries of support covering only the cost of the operation but using funds from other types of interventions for implementation (e.g. investments). In this case, however, the implementation is covered by the corresponding indicators (e.g. for investments), and not by this indicator.

Output indicators

02/07/2024 - Version 18.0

Indicator name	O.33 Number of supported training, advice and awareness-actions or units [back to overview]
Definition	The total number of information, knowledge exchange, training, advice, innovation promotion and awareness actions (including setting-up of advisory services) or other units (e.g. hours and farmers) carried out for farmers and non-farmers (excluding advice actions reported under O.2) in the Financial Year concerned.
Types of intervention concerned	The following types of interventions are concerned: <ul style="list-style-type: none"> • Knowledge exchange and dissemination of information (Article 78)
Methodology	The number of information, training, advice and awareness actions (including setting-up) or other units for which a payment was made in the Financial Year concerned shall be reported per unit amount In the case of financial instruments (FI), the output indicator shall report the number of final recipients receiving FI support under the Knowledge exchange and information type of intervention. If one or more instalments are paid before the final payment for an action, only a partial output is to be reported (see cover note).
Methodology for the aggregated values	The following aggregates should be provided: <ul style="list-style-type: none"> - The total number of information, knowledge exchange, training, advice, innovation promotion and awareness actions or other units paid by intervention (if relevant, i.e. when within one intervention several average unit amounts are defined) - The total number of information, knowledge exchange, training, advice, innovation promotion and awareness actions carried out (this aggregate covers all operations, included those paid in other units, such as actions). - The total number of each supported unit (other than operations) for information, knowledge exchange, training, advice, innovation promotion and awareness.
Unit of measurement	Number of operations, beneficiaries or other units (e.g. hours)
Comments/caveats	Plans, studies and awareness actions with the aim of knowledge exchange and spreading of information are accounted under O.33.

DISCLAIMER

Output indicators

02/07/2024 - Version 18.0

Indicator name	O.34^{MO} Number of hectares under environmental practices (summary indicator on physical area covered by conditionality, eco-schemes, agri- and forest-environment-climate management commitments) [back to overview]
Definition	The number of hectares under conditionality and other interventions promoting practices beneficial for environment and climate with CAP support.
Types of intervention* concerned ¹²	All agricultural and forestry area under practices beneficial for environment and climate due to: <ul style="list-style-type: none"> • Conditionality (Annex III) • Schemes for the climate, the environment and animal welfare (Article 31) • Agri- and forest- environmental, climate-related and other management commitments (Article 70) • Sectoral types of intervention: <ul style="list-style-type: none"> ○ For F&V, hops, olive oil and table olives and ‘other sectors’ as defined in Article 42; Article 47(1)(a) (i) to (iii), (viii), (x) and (xii), and (d) and (i) ○ For wine sector: Article 58(1)(a)
Methodology	<p>Total number of hectares subject to conditionality and for which interventions listed above were paid in the financial year concerned. Hectares are accounted only once for this indicator (i.e. physical area, without double counting).</p> <p>Three sub-indicators shall be calculated according to definition of the indicator and the methodology:</p> <ul style="list-style-type: none"> • Total agricultural area under environmental practices (the area under conditionality or under voluntary commitments for the interventions listed above) • Total agricultural area under voluntary commitments for the interventions listed above (i.e. excluding the area only under GAEC) • Total forestry area paid for the interventions listed above
Unit of measurement	Number of hectares
Comments/caveats	<p>To ease the geospatial location and thus a calculation without double counting, the area taken into account is the total area under commitment, i.e. if a Member State applies a maximum share of hectares paid, the whole area under commitment is accounted.</p> <p>All eligible area subject to conditionality shall be reported under this indicator. In case the Member State will apply a fixed reduction coefficient on permanent grassland, only eligible areas (e.g. after the application of pro rata) should be reported.</p> <p>There is a risk of double counting between sectoral types of interventions and other interventions, as sectoral types of interventions are not in IACS</p>

¹² Conditionality is included in this output indicator although it is not an intervention.

	<p>(except for wine). However, the risk of double counting is estimated to be low, because often the 2 types of support are granted on different farms. Therefore, the hectares concerned under sectoral types of interventions should simply be added to the hectares under other area-based payments.</p> <p>The same may be true of management commitments undertaken by beneficiaries who are not farmers.</p> <p>This indicator is not used for performance clearance.</p>

Output indicators

02/07/2024 - Version 18.0

Indicator name	O.35 Number of supported operational programmes [back to overview]
Definition	Total number of operational programmes per sector for which payments relating to interventions under the same operational programme were made in the Financial Year concerned.
Types of intervention concerned	The following sectoral types of interventions are concerned: <ul style="list-style-type: none"> • For F&V, hops, olive oil and table olives sector and ‘other sectors’ as defined in Article 42 and Article 47
Methodology	The number of operational programmes for which a payment was made in the Financial Year concerned shall be reported per average unit amount .
Methodology for the aggregated values	Aggregated values for operational programmes should not be reported.
Unit of measurement	Number of operational programmes
Comments/caveats	This indicator measures the total number of operational programmes per sector implemented by producer organisations, associations of producer organisations or transnational producer organisations or associations of producer organisations during the financial year in the concerned MS.
