

### Monitoring EU Agri-Food Trade: Development until May 2019

## May 2019: EU agri-food exports continue at record pace

The strong start to the EU agri-food exports in 2019 continued in May with another record figure of EUR 12.8 billion, 13.0% above the level of May 2018. Imports also increased to EUR 10.7 billion - 6% above the level of May 2018. As a result, the monthly agri-food trade surplus stood at EUR 2.1 billion – a 69% increase of the positive trade balance compared to EUR 1.3 billion in May 2018.

The highest increases in monthly export values (May 2019 compared to May 2018, EUR million) were recorded for China (+320), USA (+307), Japan (+165) and Canada (+55), while exports decreased most to Iran (-29), Libya (-27) and Morocco (-27).

Looking at product categories, the increase in export values was driven in particular by pork meat (+156), spirits and liqueurs (+151), wine and vermouth (+137) and infant food (+108) exports. On the other hand, exports of beet and cane sugar (-42), vegetable oils (excluding palm and olive oil) (-27), live animals (-23) and fatty acids (-19) decreased the most in value terms.

The value of May 2019 EU agri-food imports compared to May 2018 increased most from Ukraine (+173), China (+103), USA (+67) and Argentina (+59). The value of imports went down most from Morocco (-68), Tunisia (-37) and Indonesia (-34).

Increases were recorded in import values of oilcakes (+78), cocoa beans (+76), tropical fruit (+76) and other vegetable oils (+76), while imports of fruit (excluding citrus and tropical fruit) (-157), soybeans (-73), palm oil (-37) and olive oil (-32) fell the most in value terms.

1

## Spirits, wine, wheat, pasta and pastry continue to lead the growth in exports

For the 12-month period from June 2018 to May 2019, EU agri-food exports reached EUR 142.9 billion, i.e. a new record and a significant increase of +4.3% compared to the same period one year ago.

The main export destinations in that period (in EUR billion) were the USA (23.4), China (12.0), Switzerland (8.4), Japan (7.0) and Russia (6.9).

Major gains in annual values (in EUR billion, % change from 2017-18) have been achieved in agri-food exports to the USA (+1.6, +7%), China (+0.48, +4%), Japan (+0.47, +7%), Egypt (+0.45, +33%), Algeria (+0.30, +12%), Russia (+0.30, +4%), Ukraine (+0.29, +15%), Israel (+0.25, +14%) and Canada (+0.25, +7%).

Exports in the last 12 months fell the most (in EUR billion, % change from 2017-18) for Turkey (-0.47, -13%), Hong Kong (-0.40, -10%), Iran (-0.16, -25%) and Angola (-0.12, -17%).

In products, spirits and liqueurs (+1.0, +9%), wheat (+0.73, +20%), wine and vermouth (+0.49, +4%), pasta and pastry (+0.41, +8%) have continued to perform very well over the last twelve months. Export performance on a yearly basis also increased notably for waters and soft drinks (+0.39, +10%), cotton (+0.39, +47%), preparations of vegetables, fruit and nuts (+0.37, +8%), food preparations (not specified) (+0.35, +6%) and chocolate and sugar confectionary (+0.33, +6%).

On the other hand, annual exports of raw hides and skins (-0.39, -23%) and beet and cane sugar (-0.33, -28%) have experienced the most significant drop in value terms. Other categories with notable losses in export values over the last 12 months were offal, animal fat and other meats (-0.15, -5%), olive oil (-0.10, -4%) and pet food (-0.09, -2%).

# USA and Ukraine account for most of EU agri-food import growth

For the year 12-month period from June 2018 to May 2019, agri-food imports from third countries accounted for EUR 118.8 billion, i.e. an increase of 3.2% compared to June 2017 – May 2018.

The most important origins for EU agri-food imports over the past 12 months (EUR billion) were the USA (13.0), Brazil (11.7), followed by Ukraine (6.5) and China (6.0). Other significant origins were Argentina (5.2), Switzerland (4.7), Turkey (4.5) and Indonesia (4.2).

On a year-on-year basis, the value of agri-food imports (in EUR billion, % change) continued to grow impressively from the USA (+2.4, +23%) and Ukraine (+1.1, +20%). Other significant import increases were recorded from China (+0.54, +10%), Russia (+0.42, +33%) and Ghana (+0.37, +28%). By contrast, significantly fewer imports in value terms have been received in the same period from Indonesia (-0.6, -12%), Paraguay (-0.3, -34%), Malaysia (-0.27, -13%), Brazil (-0.24, -2%) and Australia (-0.22, -10%).

# Imports into the EU of feed continue to grow while palm oil falls the most

Looking at product categories, the highest increases in import values over the last months (in EUR billion, % change) were observed for coarse grains (+1.3, +38%), oilcakes (+0.86, +12%), cocoa beans (+0.44, +12%), soybeans (+0.42, +9%) and vegetables (+0.34, +7%). However, some import values decreased significantly, in particular for palm and kernel oil (-0.8, -13%), tropical fruit (-0.38, -3%), unroasted coffee and tea (-0.33, -4.5%), sugar (-0.18, -18%) and fruit juices (-0.13, -6%).

#### Trade surplus increases further as EU agrifood export growth outpaces import rise

With the strong export performance in 2019 and somewhat weaker growth in imports, the trade surplus for the 12-month period from June 2018 to May 2019 was EUR 2.2 billion higher than in June 2017 - May 2018 and has reached a record level of EUR 24.1 billion.
