2. NEEDS AND RESULTS TO BE ACHIEVED

2.1. Identified needs

Article 23(8) of the basic act and Article 2(1)b of the implementing regulation

1) Developing healthy eating habits,

- 2) Familiarising children with the natural taste of fruit, vegetables and milk,
- 3) Achieving acceptance, appreciation and a positive attitude among children towards fresh fruit and vegetables and milk,
- 4) Offering fruit, vegetables and milk regularly and in an appealing way for shared consumption by children as part of nursery and school life, and
- 5) Developing skills relating to fruit, vegetables and milk, e.g. relating to production and the importance of a balanced diet or handling and preparing food.

2.2. Objectives and indicators

General objective(s)	Impact indicator(s)	Specific objective(s)	Result Indicator(s)	Output Indicator(s)
Helping children develop balanced eating habits	At least a third of children in the target group participate in the scheme and thereby regularly receive an extra portion or fruit & vegetables or milk free of charge	Regular joint consumption of fruit / vegetables / milk by children in participating educational establishments	Percentage of children participating in the school scheme per school year compared to the total number of children in the target group (see under 4.)	Number of children participating in the school scheme per school year
Increasing children's skills in relation to balanced eating habits, the variety of agricultural products and their production	Increasing the number of educational establishments that make the subject of health and nutrition an integral part of their establishment profile and of everyday life	Increasing the knowledge of participating children (according to their age), for example, of balanced eating habits, the variety of products and where food comes from	Percentage of educational establishments participating in the school scheme per school year compared to the total number of educational establishments in the target group (see under 4.)	Number of educational establishments participating in the school scheme per school year
Increasing children's acceptance of fruit / vegetables / milk and encouraging them to have a positive opinion towards fruit / vegetables / milk		Increasing the skills of participating children in handling food.		Average quantity of fruit / vegetables / milk (quantity or portions) distributed per child per school year under the scheme
		Increasing participating children's acceptance of fruit / vegetables / milk and encouraging them to have a positive opinion towards fruit / vegetables / milk		Number of parents per school year who receive information on the promotion of balanced eating habits in their children.
				Number of educational establishments / children / educational staff per school year participating in educational measures

				accompanying the school scheme.

2.3. Baseline

Article 23(8) of the basic act and Article 2(1)d of the implementing regulation

There are no representative data on the consumption of fruit and vegetables and of milk and milk products by children in Thuringia. Data from the nationwide Health Survey for Children and Adolescents (KiGGS) are therefore used.

The KiGGS study shows that the majority of children and adolescents in Germany do not eat enough fruit and vegetables and do not drink enough milk and milk products: Only 12% of girls and 9.4% of boys between the ages of 3 and 17 eat the recommended five portions of fruit and vegetables each day. As far as milk and milk products are concerned, less than half of children and adolescents consume the recommended amount. With regard to both the consumption of fruit and vegetables and the consumption of milk and milk products, primary school age is a crucial time. There is a fall in the average number of portions of fruit and vegetables consumed per day when children go from nursery school to primary school. As far as milk and milk products are concerned, the proportion of those who consume the recommended amount of milk and milk products is very low, particularly among girls between 6 and 11 years of age. This is also reflected in the provision of calcium: The median level of calcium provision is too low, particularly among girls between 6 and 11 years of age.¹

Eating habits are influenced by a number of factors. Alongside environment-related influences such as the meals offered at nurseries and in schools, and social influences such as meals offered at home, individual factors also play a role. Individual influences include knowledge, attitude towards diet and skills in handling food. They can be promoted by implementing nutritional and consumer education measures. For the teaching of nutrition in nurseries, day care centres and schools, the Thuringia curricula and teaching plan are used for children up to the age of 18.

Initial position in relation to the fruit and vegetable component of the scheme

The percentage of children participating in the EU school fruit and vegetable scheme per school year (approx. 41 000) in Thuringia compared to the total number of children in the target group (see under 4.) is currently about 58%.

¹ Borrmann et al (2015): *Obst- und Gemüseverzehr von Kindern und Jugendlichen in Deutschland. Ergebnisse der KiGGS-Welle 1*; Bundesgesundheitsblatt 2015:58 1005-1014; <http://www.kiggsstudie.de/ergebnisse.html>

The percentage of educational establishments participating in the EU school fruit and vegetable scheme per school year (approx. 320) compared to the total number of educational establishments in the target group is currently about 60%.

On average, 55 portions of fruit or vegetables were distributed per child per school year under the EU school fruit and vegetable scheme.

Initial position in relation to the milk component of the scheme

Thuringia has been offering the EU school milk scheme since the 1990s. A total of 759 establishments (263 schools and homes; 496 day care centres) took part in the scheme in the 2016/17 school year. That constituted 27% of all schools and homes and 38% of all day care centres in the Federal State.

During the above period, nearly 79 000 children and pupils were involved in the scheme, with about 1 000 tonnes of milk and milk products being supplied.

Overall take-up of the EU school milk scheme has been falling for many years. Compared to the 2006/2007 school year, the number of participating establishments and the number of participating children and pupils fell by about 40%, with the consumption of school milk falling by nearly half over the 10-year period.

3. BUDGET

3.1. Union aid for the school scheme

Article 23a of the basic act and Article 2(1)e of the implementing regulation

EU aid for the school scheme (in EUR)	Period 1/8/2017 to 31/7/2023		
	School fruit and vegetables	School milk	Common elements if applicable
Distribution of school fruit and vegetables/school milk	€3 368 214.88	€1 553 317.22	
Accompanying educational measures			
Monitoring, evaluation, publicity ²			
Total	€3 368 214.88	€1 553 317.22	
Overall total	€4 921 532.10		

² Member States wishing to provide a more detailed breakdown (monitoring, evaluation, publicity, costs for transport and distribution insofar as they are not covered by expenditure for the supply/distribution of school fruit and vegetables/milk) may add lines for the estimated sub-total expenditure.

3.2. National aid granted, in addition to Union aid, to finance the school scheme				
Article 23a(6) of the basic act and Article 2(2)d of the implementing regulation				
No	<input checked="" type="checkbox"/>			
Yes	<input checked="" type="checkbox"/>			
If yes, amount (in national currency)	Fruit/vegetables	Milk/milk products		
		Milk/milk products other than Annex V	Annex V products	
	Supply/distribution	€320 000		
	Accompanying educational measures	€960 000		
	Monitoring, evaluation, publicity	€100 000		
Total	€1 380 000			
<p>No national aid is granted under the school milk component of the scheme.</p> <p>The level of funding available depends on future decisions made by the Federal State budgetary legislator and can therefore only be roughly estimated.</p> <p>Some accompanying educational measures are subsidised using Federal State funds. Establishments also provide their own resources to support the EU school scheme. For such measures, school authorities can request funds provided these measures meet the requirements stipulated under Article 23(2) of Regulation (EU) No 1308/2013 in conjunction with Article 3 of Delegated Regulation (EU) No 2017/40 and Article 4 of Implementing Regulation (EU) No 2017/39.</p> <p>The implementation of the educational measures is an eligibility condition for the participation of educational institutions. These have to implement the above measure under the own responsibility and budget neutral for the EU school scheme in question.</p>				

3.3. Existing national schemes	
Article 23a(5) of the basic act and Article 2(2)e of the implementing regulation	
No	<input checked="" type="checkbox"/>

7. ARRANGEMENTS FOR IMPLEMENTATION

7.1. Price of school fruit and vegetables/milk

Article 24(6) of the basic act and Article 2(1)h of the implementing regulation

The school fruit and vegetables and the school milk are distributed to children free of charge under the school scheme.

The maximum amounts of aid per portion are notified to participating school authorities / suppliers before the start of the school year.

Fruit and vegetable component of the scheme:

Each portion of fruit and vegetables is subsidised through EU funds at a maximum fixed subsidy rate. The school authorities submit applications for aid to the relevant payment

office. The amounts of aid per portion are notified to participating school authorities before the start of the school year.

The costs of products exceeding the EU funding are paid for using Federal State funds. A further contribution from the school authority may also be required in certain cases.

Milk component of the scheme:

Each portion of milk is subsidised through EU funds at a fixed subsidy rate. The product suppliers according to Article 5(2)(c) of Regulation (EU) 2017/40 submit applications for aid to the relevant payment office. The amounts of aid per portion are notified to the licensed product suppliers and participating establishments before the start of the school year.

Any costs of products exceeding the EU funding are not paid for using Federal State financial resources.

7.2. Frequency and duration of distribution of school fruit and vegetables/milk and of accompanying educational measures Article 23(8) of the basic act and Article 2(2)b of the implementing regulation Envisaged frequency of distribution:

	School fruit and vegetables	School milk
Once per week	<input type="checkbox"/>	<input type="checkbox"/>

teaching and also to use any available accompanying teaching material.

Irrespective of the EU school scheme, the subjects of health and nutrition form an integral part of the curriculum. The substance of accompanying educational measures that are offered under the school scheme cannot be defined by the Federal State authority in advance here. The school authorities (administrative districts, free cities, boards of trustees and trustee organisations such as churches) decide on their own which accompanying educational measures to offer beyond coverage of the substance of the scheme as part of their teaching.

Educational accompaniment in terms school scheme activity days take up between one and five days of the school year. The actual time spent is left to the discretion of the establishment concerned.

7.3. Timing of distribution of school fruit and vegetables/milk

Article 23(8) – and 23a(8) if supply in relation to the provision of other meals – of the basic act and Article 2(2)b of the implementing regulation

Envisaged timing of distribution during the day (*please tick one or more of the checkboxes below*):

☒ **No**

☐ **Yes**

7.5. Selection of suppliers

Article 23(8) of the basic act and Article 2(1)l of the implementing regulation Suppliers are chosen on the basis of an invitation to tender.

7.6. Eligible costs

7.6.1. Reimbursement rules

Article 23(8) of the basic act and Article 2(1)i of the implementing regulation

Fruit and vegetable component of the scheme:

- The costs of providing school fruit and vegetables are reimbursed on the basis of maximum amounts. The maximum funding rates are set according to market conditions in funding guidelines, set by the authority in charge of healthy nutrition.
- Sufficient funding amounts are based on a competition carried out by the school authority under an invitation to tender.
- At least 100 g is set as the portion size for school fruit and vegetables.

Milk component of the scheme:

- To set portion prices for milk, net production costs ex works are derived from two sides. Firstly, from the cost side in relation to production and, secondly, through retroactive accounting based on existing sale prices for comparable products being sold. Standard estimates for the portion prices of milk are determined from the results of these two processes. Prices are differentiated in the calculations in respect of portion and packet sizes. On the other hand, there is no arithmetic differentiation between fresh and UHT milk or with respect to the fat content.
- Logistical costs, consisting of vehicle and hire costs, are also taken into account. The average is calculated on the basis of varying routes, transport costs (refrigerated, unrefrigerated) and the number of establishments to be supplied.

- Portion sizes for milk are set at 200 ml for day care centres and 250 ml for primary, interdenominational and special schools.

7.6.2. Eligibility of certain costs

Article 23(8) of the basic act and Article 2(2)b of the implementing regulation

The funding rates calculated include all costs associated with the supply and provision of products to the establishment. They include all of the costs of supplier equipment and vehicles. Not included are expenses incurred by the establishment for the receipt of products and any equipment that may be required, such as storage space, refrigerators, etc.

7.7. Involvement of authorities and stakeholders

Article 23(6) and (9) of the basic act and Article 2(1)k of the implementing regulation

	Nature of the involvement in the EU school scheme according to process step			
	Planning	Implementation	Monitoring	Evaluation
Thuringia Ministry for Migration, Justice and Consumer Protection	Managing the school fruit and vegetable component of the scheme Managing the elaboration of a Federal State strategy	Funding guidelines	Technical monitoring of the relevant implementing authority	Overall coordination Evaluation of the school fruit and vegetable component of the scheme
Thuringia Ministry for Infrastructure and Agriculture	Management of the school milk component of the scheme Involvement in the elaboration of a Federal State strategy	Decree	Technical monitoring of the relevant implementing authority	Evaluation of the milk component of the scheme
Thuringia Ministry of Education, Youth and Sport	Involvement in coordination meetings Involvement in drawing up funding guidelines and elaboration of a Federal State strategy	Producing informational material for parents		Assistance with preparation and implementation
Thuringia State Administration Office	Involvement in coordination meetings Involvement in drawing up funding guidelines and elaboration of a Federal State strategy	Relevant implementing authority	On-the-spot checks Administrative checks Proof of use checks	Assistance with preparation and implementation

The authority in charge of health and nutrition has been involved in drafting the strategy and endorsing the list of products, and it is involved in implementation of the scheme.
