

Apiary Inspections

In England we have ONLY claimed and provided KPIs for inspections for exotic pests and diseases (not including endemics). This is so the 3426 programme could stay within the match-funding limits.

Beekeeping courses/talks

121 User feedback attests to the usefulness of the courses.

Beekeepers trained

5129

In England, funding under the National Apiculture Programme was also used to maintain a Sentinel Apiary programme and carry out a contingency exercise to monitor and prepare for exotic pests. A Technical Advisor, employed by the National Bee Unit, was also funded to deliver advice to beekeepers on good husbandry.
