UKRAINE SPOTLIGHT

The Russian invasion of Ukraine in February 2022 triggered a series of economic consequences that affect European farmers and food consumers. In the [invasion of Ukraine](#) dashboard we provide a selection of economic statistics, recent and frequently updated, that help assess these consequences.

CAP Indicators

The indicators help measure the Common Agricultural Policy performance. The EU policy provides financial support to farmers in Member States, develops the rural community and helps farmers towards more environmentally sustainable farming.

CAP 2014 - 22

CAP 2023 - 27

Context indicators

CAP 2023 - 27

The performance monitoring and evaluation framework (PMEF) establishes a list of indicators to help assessing the performance of the CAP 2023-27 and improve its efficiency. Member States planned their actions towards 10 CAP specific objectives for 2023-27 in their CAP Strategic Plan using these indicators.

Dashboards & Reports

Result indicators dashboard

Result indicators link CAP actions to their purpose. Member States set targets to quantify their ambition in the implementation of the CAP.

CAP Strategic Plans by country

Information on the delivery and application of the CAP Strategic Plans in each EU country.

CAP Strategic Plans support a wide range of interventions addressing the specific needs of EU countries and their territories. Designed in line with a new result- and performance-oriented approach, they aim to deliver tangible results in relation to EU-level CAP specific objectives, while contributing to the [European Green Deal](#).

CAP Strategic Plans encourage the transition towards a smart, sustainable, competitive, resilient and diversified agricultural sector, while ensuring long-term food security. They also contribute to climate action, the protection of natural resources and the preservation/enhancement of biodiversity, as well as strengthen the socio-economic fabric of rural areas.
