JANUARY - JUNE 2021: EU27 AGRI-FOOD TRADE ON THE UPWARD TREND

During the first half of 2021, EU27 agri-food trade (exports plus imports) reached a value of **€157.1 billion**; i.e. 3% more than in January-June 2020. EU27 exports increased by almost 6% compared to the corresponding period in 2020, reaching **€95.3 billion**. EU27 imports attained **€61.8 billion**, 1% less than the same six months period in 2020. Looking at the monthly developments, EU agri-food export values in June 2021 were 14% higher compared to the same month in 2020, after having increased steadily since March 2021 (↑14% in May, ↑10% in April). Monthly EU import values in June 2021 were 10% higher compared to the same month in 2020, after having followed an upward trend since March 2021 (↑4% in May, ↑3% in April).

EU27 EXPORTS: INCREASING EXPORTS TO THE US, DOWNWARD TREND IN EXPORTS TO THE UK

On a year over year basis, for the period January-June 2021, EU27 export values increased most to the **United States** (↑€1 657 m, ↑16%), when compared with the same period in 2020. While the majority of EU agri-food products to the US reported higher export values, the biggest increases were noted for wine (↑€627 m, ↑36%), spirits and liqueurs (↑€475 m, ↑41%), and preparations of vegetables (↑€107 m, ↑20%). **China** (↑€627 m, ↑36%) came second with higher EU export values for the majority of products. In particular, good performance was noted for EU pig meat (↑€257 m, ↑10%), coarse grains (↑€216 m, ↑190%), and wine (↑€193 m, ↑77%).

Other destinations, for which the values of EU27 agri-food exports have increased most since January 2021 compared to the first half of 2020, include **Switzerland** (↑€414 m, ↑9% - mainly due to higher exports of spirits and liqueurs), Norway (↑€383 m, ↑16%), Israel (↑€204 m, ↑19%), and Canada (↑€200 m, ↑12%).

On the other hand, for the first half of 2021, the EU27 export values continued to fall most to the **United Kingdom** (↓446 m, ↓2%) compared to the same period in 2020. While a decline was observed for the majority of EU agri-food products, cigars and cigarettes (↓176 m, ↓61%) and pig meat (↓124 m, ↓24%) decreased most. Monthly EU export values to the UK in June 2021 were 7% higher compared to the same month in 2020, after having increased steadily since March 2021 (↑4% in May, ↑8% in April).

Other destinations, for which the value of EU27 agri-food exports has decreased most since January 2021 compared to the same period last year, include **Saudi Arabia** (↓341 m, ↓16% - in particular driven by lower exports of wheat and infant food), **Algeria** (↓107 m, ↓7% - milk and cream), South Africa (↓98 m, ↓12%), and Kuwait (↓89 m, ↓23%).

The main EU27 export destinations in the first half of 2021 were the United Kingdom, the United States, China, Switzerland and Japan. 51% of EU agri-food exports went to these five countries.

EU27 EXPORTS: STRONG PERFORMANCE OF EU EXPORTS OF WINE, SPIRITS AND LIQUEURS

Looking at product categories, the rise in EU export values was driven, in particular, by trade in **wine** (↑€2 025 m, ↑33%), and **spirits and liqueurs** (↑€1 003 m, ↑35%). Other noteworthy increases were observed for **pig meat** (↑€485 m, ↑10%), rapeseed and sunflower oils (↑€465 m, ↑28%), chocolate and confectionary (↑€446 m, ↑12%).

On the other hand, EU exports of **wheat** (↓1 371 m, ↓32%), and **infant food** (↓566 m, ↓13%) saw the biggest declines compared to the same period in 2020. Significant decreases were also reported for **vegetables** (↓177 m, ↓6%), butter (↓161 m, ↓20%), milk powders and whey (↓100 m, ↓4%).

The EU agri-food export products with highest export values in the period January-June 2021 included wine, pig meat, pasta and pastry, chocolate and confectionary, infant food. These products accounted for more than 27% of EU27 total agri-food exports.

EU27 IMPORTS: STRONG DECLINE IN EU IMPORTS FROM THE UNITED KINGDOM

During the period January-June 2021, the value of EU27 agri-food imports has decreased by 1.3% compared to the first six months of 2020. This has been driven by a large-scale fall in the value of EU imports from the **United Kingdom** (↓2 141 m, ↓30%). While almost all agri-food product categories reported lower imports - except for spirits and liqueurs, those with the most significant import reductions in value include tropical fruits, nuts and spices (↓147 m, ↓87%), wine, vermouth, cider and vinegar (↓113 m, ↓69%), vegetables fresh, chilled and dried (↓108 m, ↓54%), pet food (↓106 m, ↓29%), chocolate and confectionary (↓96 m, ↓24%), and bovine meat (↓85 m, ↓41%). Monthly import values from the UK in June 2021 were 18% lower compared to the same month in 2020, after having fallen sharply since January 2021 (↓10% in May, ↓18% in April).

A further decrease was also observed in the EU imports from the **United States** (↓522 m, ↓10%) compared to the first half of 2020. It was primarily driven by reduced imports of tropical fruit, nuts and spices (↓437 m, ↓28%). On the other hand, a

notable increase in value of EU imports was reported for US soya beans (↑€293 m, ↑43%).

Other destinations, for which the value of EU27 agri-food imports fell most since January 2021 compared to the first half of 2020, include **Ukraine** (↓285 m, ↓9% - important reductions of EU imports of maize and rape seeds), Viet Nam (↓165 m, ↓14% - coffee) and Moldova (↓131 m, ↓44%).

On the other hand, countries for which the EU27 import values have kept increasing most since January 2021 include **Brazil** (↑€614 m, ↑11% - soya beans and soya bean oilcakes), **India** (↑€324 m, ↑26% - soya bean oilcakes), **Australia** (↑€320 m, ↑40% - rape seed), Serbia (↑€213 m, ↑32% - maize), and Argentina (↑€155 m, ↑7% - oilcakes).

The top origins for EU agri-food imports in the first half of 2021 included Brazil, United Kingdom, United States, Ukraine and China. These countries accounted for 34% of EU27 agri-food imports in value terms.

EU27 IMPORTS: STRONG INCREASE IN EU IMPORTS OF OILCAKES AND SOYA BEANS IN VALUE TERMS

Looking at product categories over the first six months of 2021, the highest decreases in import values continued to be reported for **tropical fruit, nuts and spices** (↓733 m, ↓10%), **unroasted coffee and tea** (↓245 m, ↓7%), **fruit juices** (↓175 m, ↓16%), raw tobacco (↓168 m, ↓15%), and rice (↓128 m, ↓18%).

On the other hand, import values increased most for **oilcakes** (↑€877 m, ↑28%), **soya beans** (↑€739 m, ↑27%), **fatty acids and waxes** (↑€216 m, ↑14%), cut flowers and plants (↑€106 m, ↑18%), and palm and palm kernel oil (↑€68 m, ↑2%).

The EU agri-food import products with highest import values in the period January-June 2021 included fruit (tropical and other than citrus), oilcakes, soya beans, unroasted coffee and tea. These products accounted for nearly 33% of EU27 agri-food imports.

EXPANDING SURPLUS IN EU27 AGRIFOOD TRADE

During the period January-June 2021, the EU27 agri-food trade surplus' value stood at **€33.5 billion**, an increase of 21% compared to the corresponding period in 2020. This net trade balance remained to be driven by high exports of wine, pig meat, infant food, chocolate and confectionary, pasta and pastry.
