Ibéricos **COVAP**

MOMENTOS DE PLACER

OUR PRINCIPLES

The **100% Ibérico Breed**, a unique breed raised here with a long, select lineage.

Free range conditions in our Dehesa: the largest and ancient pastureland where Ibérico pigs live.

Audit of the closed production due to **three exhaustive control**: ASICI, DOP Los Pedroches and team specialized in COVAP.

Four natural caves where 800,000 pieces are aged for **3 years** in drying and aging facilities.

Animal Welfare audit of the entire production process from the origin to final product by one of the most important certifiers in the world.

Natural healthy products with high nutritional value, protein, minerals and vitamins, source of phosphorus and iron and high levels of oleic acid.

**What do you ask for
the consumer?**
