Public authority/ Private stakeholder	Agriculture	Authority	Swedish Board of Agriculture	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Involved in all aspects of the school scheme. The Swedish Board of Agriculture is responsible for applications, payment and on the spot checks related to the scheme. During the year, no education authority has been involved. As we in Sweden distribute the milk in connection with school meals, we do not revise the program annually, but it runs during the years the strategic plan applies. We use the existing curricula for complementary measures. In all grades from preschool to high school, there are parts of the curriculum that came about healthy food, agriculture, ecology, etc. When it comes to problems connected to Covid-19, we have not heard of any case of force majeure or that schools were closed to any great extent last year. In general the schools have been able provided meals in some extend even if there has been situation with distance learning. In those cases it has been possible to provide milk.
