Data on interventions in certain sectors as referred to in Article 12(2)

- Annex V on rules on data on interventions in certain sectors referred to in Article 12(2) to Commission Implementing Regulation (EU) 2022/1475 of 6 September 2022 laying down detailed rules for implementation of Regulation (EU) 2021/2115 of the European Parliament and of the Council as regards the evaluation of the CAP Strategic Plans and the provision of information for monitoring and evaluation (OJ L 232, 7.9.2022, p. 28).

#### STRUCTURE OF THE DATA TO BE COMMUNICATED AS REFERRED TO IN ANNEX V

The purpose of this document is to present the Forms in electronic format that constitute reporting document that the competent authorities of the Member states are required to transmit to the European Commission pursuant to Article 15(3) of Commission Delegated Regulation (EU) 2022/1475<sup>1</sup>.

The structure is devided in two Parts, Part I containing 9 Forms, and Part II, containing 5 Forms.

The 14 Forms are defined by taking into account the reporting requirements indicated in Annex V to Implementing Regulation (EU) 2022/1475 on rules on data on interventions in certain sectors referred to in Article 12(2) of that Regulation.

Vlaams Gewest	BE2
Région Wallonne	BE3

The indication of the region concerned on the cover page of each section and at the beginning of each table is an option for any Member State that finds it more appropriate to provide a regional breakdown.

## Monetary values

All monetary values should be expressed in Euro, except (1) for those Member States that use a national currency, and (2) where EUR is clearly specified in the Forms. A "NATIONAL CURRENCY" box is present at the beginning of the forms.

Currency	
v	

The box should indicate the code of the national currency used.

At the beginning of the implementation of the sectoral interventions, please make a choice of the currency (EUR or national). This choice shall be applicable throughout the whole programming period.

Expenditure for the purchase/renting/leasing of a tangible (e.g. equipment, machinery, etc.) or an intangible (e.g. client portfolios, software, etc.) asset may be different from the corresponding value of the investment made. This is the case, for instance, where the PO/APO relies on a loan granted by a credit institute to purchase an asset. In that case, the expenditure would correspond to "the annual instalment related to the loan open to purchase the asset" (or the sum of several annual instalments, where a number of assets have been purchased in the year reported).

This is also the case, for instance, where an asset (e.g. equipment) is purchased in the year N but is installed and become fully operational (i.e. the investment is made = the PO concerned or its

This is also the case, for instance, where an asset (e.g. equipment) is purchased in the year N but is installed and become fully operational (i.e. the investment is made = the PO concerned or its members can use it as intended in the approved operational programme) only in the following year. In such a case, the expenditure for the purchase/renting/leasing of the asset is to be recorded in the year N.
