## BACKGROUND INFORMATION

Annex III to Regulation (EU) No 1169/2011 defines the:

- required suffix and
- optional prefixes

for the indication of the alcoholic strength by volume of alcoholic beverages.

Each linguistic version of the Regulation sets the exact wording to be used. The exact wording may have changed in relation with the national law adopted during the transposition of Directive 87/250/CEE.

The exact wording is far from been harmonised across all the different linguistic version of the FIC. Some versions require the use of national language (*% tūrio*), other the abbreviation “%vol” with or without the dot. The Polish and German versions of the Regulation have already been modified through a *Corrigendum*<sup>1</sup>.

In the annex to this document you will find a table which summaries the list of required suffix and optional prefixes by linguistic version.

<sup>1</sup> Corrigendum published in the Official Journal of the EU the 22 November 2014:
