Access to land for farmers - a chance for renewal

“An extra-family farm succession is the only opportunity for us to live our dream job.”

“I grew up on a farm, but my brother is the family successor. How can I get access to land?”

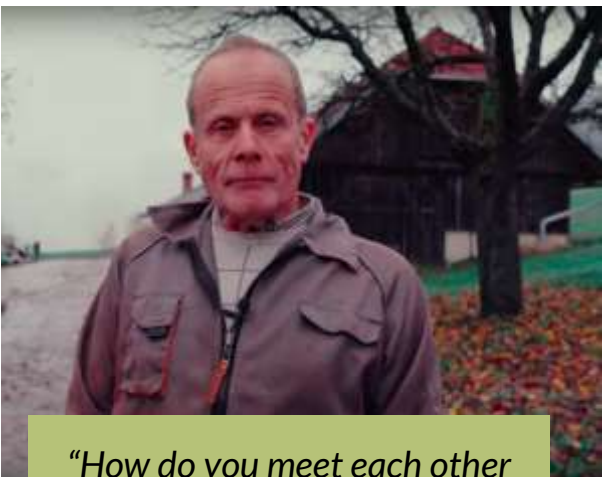

Farm Succession in Europe:
An Erasmus+ project with
examples from France,
Belgium, Austria and the
Netherlands

Farm succession - changes for continuity

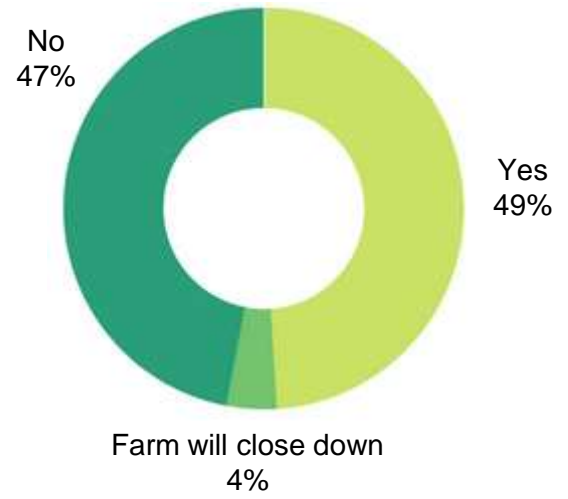

“Our farm is our lifework and much more than a financial value”

“How do you meet each other if your successor is not your child?”

Is the farm succession secured? (Austria, 2019)

Save diversity for sustainable food systems

"We had the luck to find the right successors for our farm."

- Farm Succession strategies are key for farm continuity
- More innovative farms for more diversity
- Sustainable food systems rely on local, diverse and economically healthy farms
- Bringing together innovation and traditional knowledge
