**Synopsis of the main elements in the Official Controls Proposal relevant to the DPO, PGI and TSG Products**

- Whilst PDO, PGI and TSG products are already covered by the current Regulation on official controls (Regulation 882/2004) the proposal clarifies that such products are within the scope
- In all sectors, official controls will be carried out regularly on a risk basis and with appropriate frequency
- Regular unannounced official controls will need to be directed at identifying fraudulent practices
- Possibility for control bodies to take certain measures in cases of non-compliance
- Possibility for the Commission to adopt delegated acts to establish specific rules for carrying out sector specific controls
- Exclusion from mandatory fees for official controls for PDO, PGI and TSG products
