

Plant protection products in rice: differences in use between EU and third countries

Federico Facchin
Policy Advisor
CDG Rice

22/11/2021

copa***cogeca**
european farmers european agri-cooperatives

PPPs: US vs Italy

PPPs: FR, ES, IT, Vietnam, India and China

Conclusion

- * EU has the most stringent standards on food safety and for approval of active substances for plant protection in the world
- * Difference in access to PPPs across the EU are also quite important
- * Need of a well-filled toolbox (safe, effective, affordable, sustainable).
- * Farm to Fork Strategy objectives –resources needed to deliver in time!

Thank you for your attention !
