Regionalisation for ASF

Commission Implementing
Decision of 9 October
2014 (2014/709/EU)

Updated as needed

Seasonality in EU

ASF outbreaks in domestic pigs 2014 - Oct 2016

ASF notif. of cases in wild boar 2014 - Oct 2016

EU funds allocated by the EU

- Maximum amount allocated in 2014 (first EU ASF cases)
- Steady increase in the allocation for 2015, 2016
- Expected increase for 2017
- 26 MEUR allocated for the period 2013-2016

Allocation 2016 African Swine Fever

Classical measures (55% of 2016 expenditure)

- Sampling and testing
- Compensation culled/ slaughtered animals
- Killing
- Cleaning and disinfection

Other (new) measures (45% of 2016 expenditure)

- Selective hunting of female wild boar
- Removal of wild boar carcasses
- Awareness campaigns

The domestic pig challenge

- **Low contagiousity: ASF is a disease with a tendency to spread slowly within a herd.**
- **Passive surveillance: 97% of the outbreaks were reported by the farmer so passive surveillance worked well**
- **Biosecurity**
