

Common Market Organisation (CMO) Fruit and vegetables sector

Market transparency

Unit G2. Wine, spirits, horticultural products, specialised crops
DG Agriculture and Rural Development
European Commission

10 September 2021

Introduction.

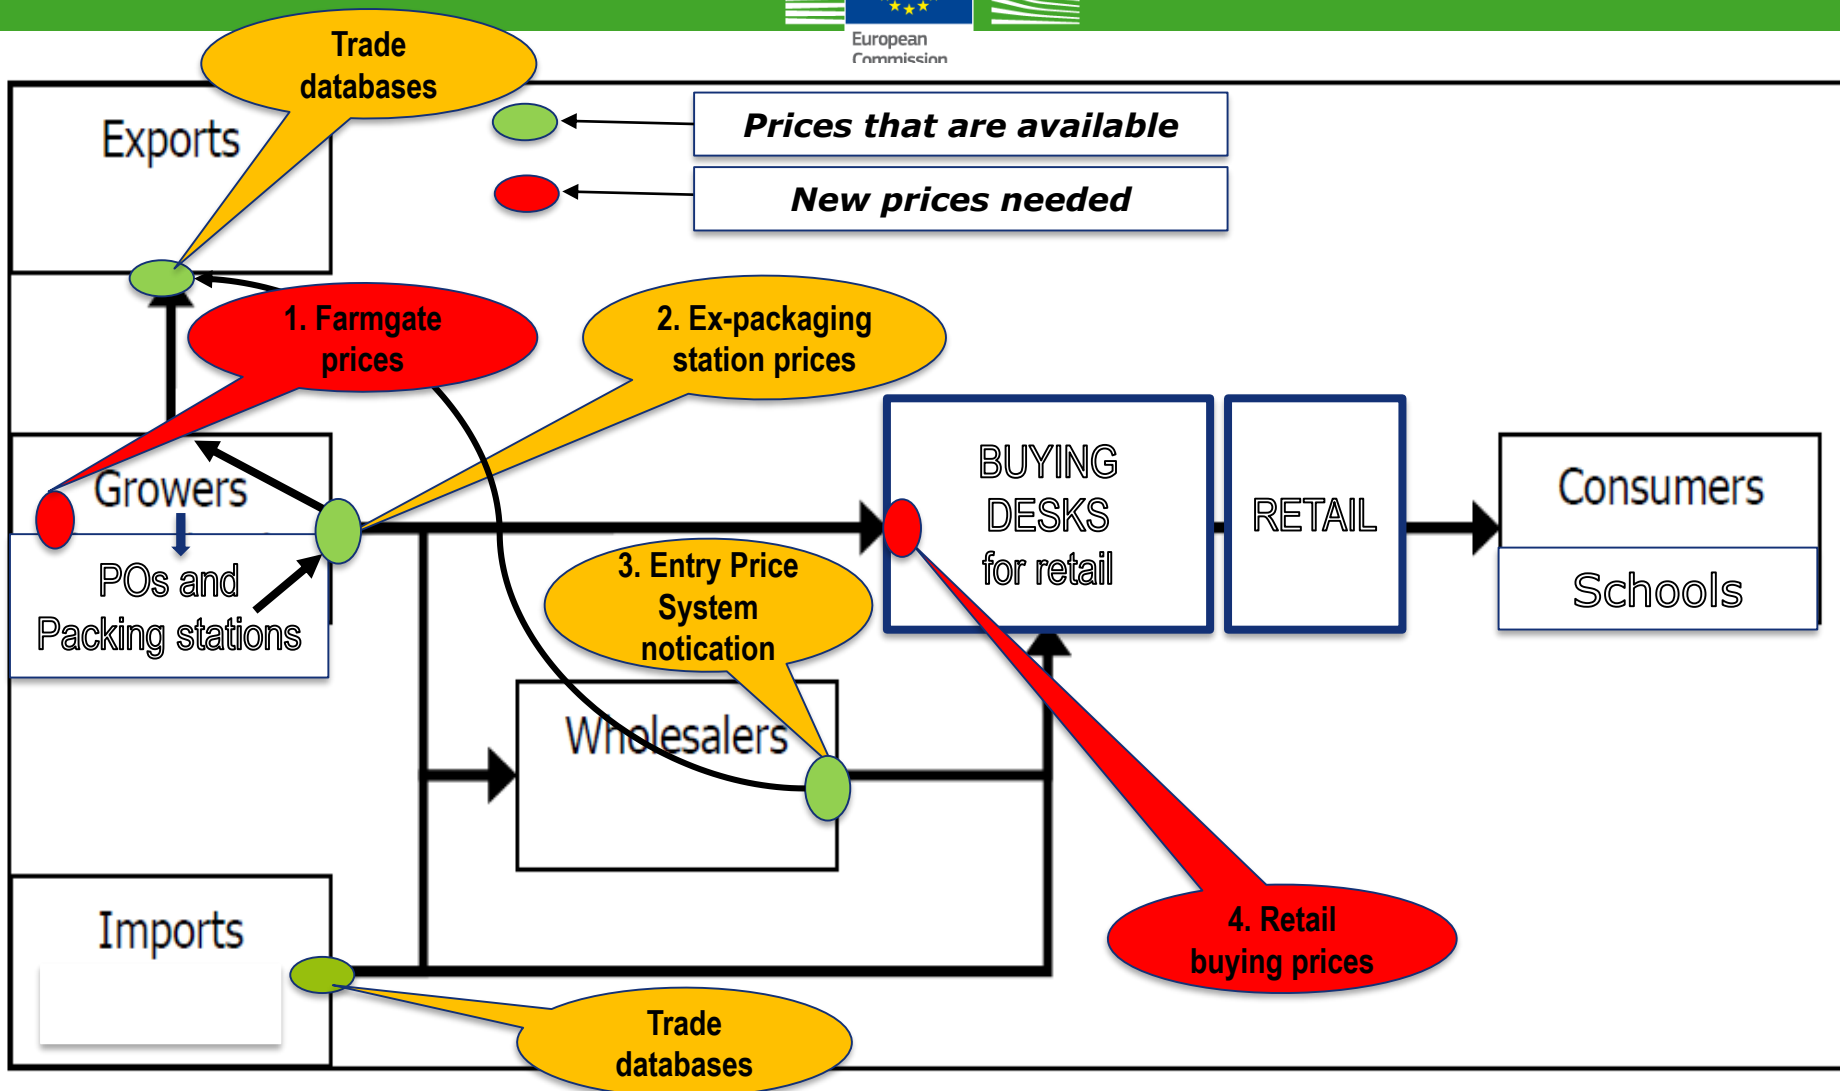

- Our current price reporting system is based on notifications for ex-packaging station prices (ISAMM FORM 744).
- Gross market prices for third country origins are notified through the Entry Price System. -> ISAMM FORM 490
- For greater transparency two additional chain stages are needed: **farmgate** and **retail buying** levels.
-> new ISAMM FORMS

STAGES OF THE FRUIT AND VEG. CHAIN

APPLES FOR PROCESSING

ANNEX

(detailed information)

Ex-packaging station prices,

Article 55(1) of Regulation (EC) 2017/891 is very specific:

« 1..... For fruit and vegetables covered by the general **marketing standard** set out in Part A of Annex I to Implementing Regulation (EU) No 543/2011, only prices of products meeting that standard shall be notified, whereas prices for products covered by a specific marketing standard set out in Part B of that Annex shall only concern products of class I. Member States shall notify **a single weighted average price** corresponding to the types and varieties of products, sizes and presentations specified in Annex VI to this Regulation. Where recorded prices concern other types, varieties, sizes or presentations than those specified in that Annex, Member States shall notify the Commission of the types, varieties, sizes and presentations of the products to which prices correspond. **Notified prices shall be ex-packaging station, sorted, packaged and, where applicable, on pallets, expressed in euro per 100 kilograms net weight.**»

Comments

Regulation (EC) 2017/891 with all its provisions remains in force.

Regulation (EC) 2017/1185 (consolidated) provides for some complimentary provisions to the above and essentially the following:

- adds farmgate and retail stages
- lists the products for which notification on new stages is compulsory
- establishes thresholds above which additional notifications should be made

Increasing transparency (I): Farmgate prices [Annex I, 5(c)]

- Reference definition

...OECD definition...

<<A basic price with the “farm gate” as the pricing point, that is, the price of the product available at the farm, excluding any separately billed transport or delivery charge.>>

- **<<This price is measured at the farm gate (that is, at the point where the commodity leaves the farm) and therefore does not incorporate the costs of transport and processing.>>**

Provisions for farmgate prices [Annex I, 5(c)]

(c) Farmgate prices

Content of the notification: representative prices of tomatoes, apples, oranges, peaches and nectarines, and bananas intended for the fresh market. All prices expressed per 100 kg of product.

Other: prices shall be at farmgate and products harvested.

Provisions for retail buying prices [Annex I, 5(d)]

(d) Buying prices

Content of the notification: representative retail buying prices of tomatoes, apples, oranges, peaches and nectarines, expressed per 100 kg of product.

European
Commission

Thank you
