State of play of the preparation of the CAP Strategic Plan in the Czech Republic

CDG Direct Payments & Greening – 11/10/2019

State of play with the CAP reform

- Discussions started under BG PRES and continued with progress during AT and RO PRES
- FI PRES continues to pursue the technical and the political discussions
- The texts of the Horizontal and CMO Regulations are broadly stable, whereas additional progress on the CAP Strategic Plans Regulation is required
- The main effort is focussed on the following aspects
 - definitions and related conditions
 - types of interventions in the form of direct payments
 - sectoral types of interventions
 - types of interventions for rural development
 - new delivery model
 - green architecture
 - financial provisions
- In view of the progress FI PRES intends to present updated drafting suggestions on all three Regulations by early December
