Amendment to Reg. 2017/1185

Background

- We all know the impact of Russia's invasion of Ukraine.
- As mentioned in the SCA meeting of 14 March 2022, the Commission is looking into various measures to mitigate the current situation. As indicated in the Communication on food security of 23 March 2022*, these include among others:
 - Better monitoring levels of private stocks of essential commodities for food and feed
 - Delivering a support package of EUR 500 million to support farmers most affected
 - Deploying market safety net measures to support specific markets and allow for increased levels of advances of direct payments later this year.
 - A new self standing Temporary Crisis Framework (TCF) for state aid
 - Allowing Member States to derogate from certain greening obligations in 2022 to bring additional agricultural land into production

* Communication from the Commission to the European Parliament, the Council, the European Economic and Social Committee and the Committee of the Regions on Safeguarding food security and reinforcing the resilience of food systems ([COM\(2022\) 133 final](#) of 23 March 2022)

Amendment to Reg. 2017/1185

- Recital (4):
- (4) **Russia's invasion of Ukraine** on 24 February 2022 and the resulting disruptions in world market shed light on a series of information gaps. **Up-to-date information on levels of stocks** of cereals, oilseeds and rice, including production and levels of stocks of certified seeds, held by producers, wholesalers and relevant operators revealed itself to be **essential to decide on relevant measures to prevent and mitigate market disruptions**.
