

# Arable Crops market situation

Civil Dialogue Group – Cereals, Oilseeds and Protein Crops

*8 September 2020*

# Agrometeorological conditions

# Agrometeorological overview (1 Jul-15 Aug)

- **heatwaves** with max temperatures above 35°C (40°C locally) in western Europe, end of July and beginning of August
  - slightly cold conditions in Scandinavia and the Baltic countries
- significant **dry deficit** in large parts of Europe (western, north-central, and south-eastern regions)
- **rain surplus** in areas of southern and south-eastern Europe

# Areas of concern (1 Jul-29 Aug)

- dry deficit and high temperatures **depleted soil moisture levels** in FR, BE, LU, NL, and northern DE, negatively affecting yield potentials of summer crops
- no impacts in PL and southern LT due to mild temperatures (and rainfall in June)
- **drought conditions** returned to eastern RO and BG, negatively affecting summer crops
- summer crops profited from **beneficial rain surplus** in eastern IT, AT, SK, HU, and western RO and BG, recovering from unfavourable dry start of the season

# EU Cereals Balance Sheet 2020/21

- Production forecast slightly below average (276,5 million tonnes, - 6 % y/y)
  - Areas communicated by Member States
  - Yield Forecast for maize
  - Decrease of total cereal area (52 million ha, -2,1% y/y) due to the smallest soft wheat area since 2007
  - Huge decrease of soft wheat production y/y (area and yield effects)
- Increase of total imports, in particular for soft wheat
- Decrease of total exports, in particular for soft wheat
- Increase of total ending stocks
