- Profiles:
- Natural resources and environmental protection – the fields of agriculture and food industry
- Services – trade and economic fields

We are the only agricultural profile high school in Brasov county.

We have the following qualifications: veterinary, agronomist, agritourism, food industry, pisciculturist

... so, what our strengths recommend us

INTEGRATED PRACTICAL WORKSHOPS

The student must make mistakes

The student must experiment

The student must learn

This is what our workshops do, they make students **learn by doing.**

It works in our school: grocery store, bakery workshop, workshop of jams and preserves, canned vegetables and fruits.

Students upon graduation being able to build their own business.

Learn by **DOING**.

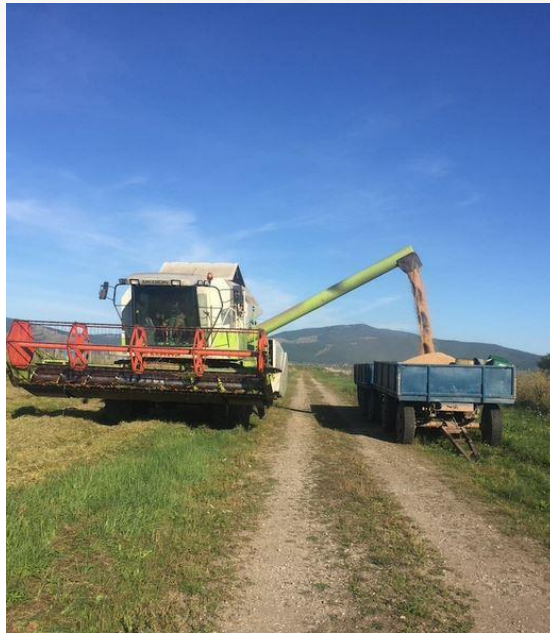

❖ we stimulate the development of
practical skills

&

❖ we value the students' comfort at
school

All learning activities are based on actual production "Farm to Fork"

we produce wheat, turn it into flour and finally into pastry products

CARMANGERIE
Atelier Didactic

COLEGIUL
TARA BARSEI
PREJMER

everything we produce is consumed at the school cafeteria

"We grow through Agricultural Education" (CEA)

Program run since 2015 by a consortium of organizations that includes the Romanian Center for European Policies, the World Vision Romania Foundation, Junior Achievement Romania and the Civitas Foundation for Civil Society, financed by the Romanian-American Foundation (RAF)

The main outcomes of the program:

over 1500 students/year participate in entrepreneurial education activities, practice, value chain study visits;

involves more than 120 teachers/year in communication and promotion courses, writing and implementing educational projects (practice, study visits, promotion);

the inclusion of a financing line worth 43.6 million Euros in the National Recovery and Resilience Plan, dedicated to agricultural high schools; liceelor agricole;

Thank you!
