Land sector issues - Forestry

- Discussion on the coordination of support for implementation in the forest sector and voluntary meetings
- No outcome (rule 16: we discussed and we will continue discussions)
- Uncertainty about continuation of meetings and the agenda item due to different legal views
- Other forest related items were postponed to later sessions already in Marrakech at COP22

Land sector issues - Agriculture

- **Substantive COP decision establishing joint SBSTA-SBI work for 3 year period ending when Paris Agreement comes in to force, to readjust and improve support for sustainable agriculture.**
- **Uses submissions by parties, workshops and technical expert meetings to produce scientific and technological advice to be used by parties and farmers on the ground**
- **Will produce more knowledge and methodologies for parties to take action in their respective agriculture sectors in the post-2020 climate regime.**

- **Covers a wide range of issues, including soil health, soil carbon, assessment of adaptation, nutrient management systems, livestock and food security issues amongst others**
- **<http://unfccc.int/resource/docs/2017/sbsta/eng/I24a01.pdf> (Link to the draft COP decision on agriculture, to be published shortly as part of CP1/23)**
