## 1. VOLUNTARY COUPLED SUPPORT IN A NUTSHELL

Member States may use up to a maximum percentage of their annual national ceiling for direct payments to finance **voluntary coupled support** (VCS) (Chapter 1 of Title IV of Regulation (EU) No 1307/2013 of the European Parliament and the Council ('the basic act' hereafter)).

According to the currently applicable rules<sup>1</sup>, the Member States may only decide to grant VCS to a list of sectors and productions<sup>2</sup> **in sectors or regions, where specific types of farming or specific agricultural sectors particularly important for economic, social or environmental reasons undergo certain difficulties**. Coupled support is a production-limiting scheme that shall take the form of an annual payment based on fixed areas and yields or on a fixed number of animals and shall respect financial ceilings to be determined by Member States for each measure and notified to the Commission (Article 52(6) of the basic act).

Each Member State may only use a limited part of its national ceiling for direct payments to grant VCS. This **budgetary limit** is 8+2%, which, under certain conditions, may be increased to 13+2%. Further increase is possible only if certain specific needs require so, in which case the decision of the Member State is also subject to approval by the European Commission.

The Member States could apply VCS as from claim year 2015. They may review their support decisions on an annual basis (notification due by 1 August of the previous year).<sup>3</sup>

## 2. VCS REVIEW APPLICABLE FROM CLAIM YEAR 2019 - OVERVIEW

- Number of Member States: In the framework of the 'original support decisions', **27 Member States** (i.e. all Member States except for DE) decided to apply VCS from claim year 2015. This has remained unchanged so far, also including this review.
- Number of support measures: 256 measures were implemented by these 27 Member States as from claim year 2015. Following the 2016 review, the number of measures increased to 264 as from claim year 2017. As result of the review as from claim year 2019, the number of measured decreased to **258 measures**.
- Budget: The annual monetary allocation has been, and remained after this review, around **EUR 4.2 billion per year**, which represents a little above 10% of the direct payments budget (EU28).
- Support distribution per sector: The **three animal-based sectors** have always been, and also remained after this review, the largest VCS beneficiaries, receiving almost **75% of all coupled support**. The most important area-based beneficiaries are **protein crops** (11.2%), **sugar beet and fruits and vegetables** (each with 4.3% share).

Others\*: Cereals, Olive oil, Rice, Grain legumes, Starch potato, Nuts, Seeds, Hops, Hemp, Oilseeds, Silkworm, Flax

**Comparison of the VCS envelopes for claim years 2019 and 2020:**

Member States' overview:

NB: Germany maintained its former decision not to grant VCS.

### 3. REVIEW OVERVIEW FOR THE MAIN SECTORS<sup>4</sup>

#### 3.1 Beef and veal sector

VCS decisions in general<sup>5</sup>:

- Number of Member States: In the framework of the 'original support decisions', 24 Member States decided to grant coupled support for beef and veal as from claim year 2015. This number decreased to **23 Member States** from claim year 2017, which remained **unchanged** in this review.
- Number of support measures (EU 28): In comparison with the former support decision, it remained unchanged, with **54 measures** as from claim year 2019.

Therefore, though the beef and veal sector has always been, and also remained after this review, the biggest VCS beneficiary, its share in total VCS budget slightly decreased (by 1%) to **around 40%**. This represents **4.1%** of the annual national ceiling for all direct payments.

- Fixed number of heads (EU28): It remained roughly stable at around **19.3 million heads**<sup>6</sup>.
- Per unit amount (prior estimate): The average support rate (**88 EUR/head**; EU28 average) remained roughly at its previous level. This still exceeds the average support level available under the other animal based sectors (milk and milk products; sheep and goat meat).

<sup>5</sup> Further details are available in Table 1 in the annex.

<sup>6</sup> Concerning the fixed references (fixed areas or fixed number of animals), it is to be noted that in some case the Member States' notifications were incomplete. On the other hand, in some cases double-counting is not to be excluded.

<sup>7</sup> Further details are available in Table 2 in the annex.

- Budget: The review decreased the sector's monetary allocation (EU28) by less than 1% from EUR 899 million to **EUR 885 million EUR in claim year 2019** and from EUR 888 million to **EUR 882 million in claim year 2020**.

The milk and milk products sector has always been, and also remained after this review, the 2<sup>nd</sup> biggest VCS beneficiary (after the beef and veal sector). Its share from VCS remained **somewhat below 21%** (EU28). This represents around **2.1%** of the annual national ceiling for direct payments.

- Fixed number of heads (EU28): Down by 7.4% from 12.2 to **11.3 million heads**.

Though the sheep and goat meat sector has always been, and also remained after this review, the 3<sup>rd</sup> biggest VCS beneficiary (after the beef and veal and the milk and milk products sectors), its share in VCS remained **below 13%**.
